

ID	Abstract No.	Session	Day	Time	Title
id001	OO-006	Oral session 2	Saturday 7 October	17:30-18:20	The Increase of Chorioamnionitis Following Women with Uterine Cervical Conization: A Retrospective Study
id002	ON-016	Oral session 5	Sunday 8 October	11:00-11:50	<b>Incidence of hypospadias in severe small-for-gestational-age Asian infants: a multicenter population study</b>
id003	P-038	Poster	Monday 9 October	11:00-12:00	<b>Severe small-for-gestational-age infants are vulnerable to increased oxidative stress</b>
id004	P-039	Poster	Monday 9 October	11:00-12:00	<b>Neonatal mouse model of meconium peritonitis&nbsp;</b>
id005	ON-015	Oral session 5	Sunday 8 October	11:00-11:50	Viral Load Change during Antiviral Therapy Is Not Useful for the Prediction of Hearing Dysfunction in Symptomatic Congenital Cytomegalovirus Infection
id006	P-111	Poster	Monday 9 October	11:00-12:00	Long use of neurally adjusted ventilatory assist could decrease dosage of corticosteroid for bronchopulmonary dysplasia.
id007	P-013	Poster	Monday 9 October	11:00-12:00	<b>Prediction of neurodevelopmental impairment in congenital cytomegalovirus infection by early postnatal magnetic resonance imaging</b>
id008	ON-006	Oral session 1	Saturday 7 October	16:20-17:10	<b>Influence of&nbsp;<i>UGT1A1</i>&nbsp;</b>genetic variants on unbound bilirubin levels in Japanese newborns: a preliminary study</b>
id009	P-091	Poster	Monday 9 October	11:00-12:00	A case report of <i>ZC4H2</i>-associated rare disorders associated with three large hernias
id010	P-008	Poster	Monday 9 October	11:00-12:00	The hepcidin level of the fetus was affected only by maternal iron level
id011	P-099	Poster	Monday 9 October	11:00-12:00	Prevalence of Infectious Diseases and Effect of Palivizumab on RSV-associated Infections in Preterm Infants: A 2-year Follow-up
id012	P-052	Poster	Monday 9 October	11:00-12:00	Usefulness of postoperative endometrial evaluation by hysteroscopy for perinatal management of pregnancies after adenomyomectomy
id013	ON-014	Oral session 5	Sunday 8 October	11:00-11:50	Internal Cerebral Vein Pulsation Index For Predicting Premature Intraventricular Hemorrhage
id014	ON-003	Oral session 1	Saturday 7 October	16:20-17:10	Vitamin D Status in Mongolian Neonates and Response to Vitamin D Intake During First 3 Months of Age
id015	P-121	Poster	Monday 9 October	11:00-12:00	Therapeutic strategy for refractory patent ductus arteriosus: a retrospective single-center cohort study
id016	P-123	Poster	Monday 9 October	11:00-12:00	Renal maturation is delayed in very preterm infants, particularly those born at 22-24 weeks gestational age
id017	P-138	Poster	Monday 9 October	11:00-12:00	Visiting Restriction Affects the Mother-infant Bonding in Preterm Infants in Pandemic COVID period
id018	P-081	Poster	Monday 9 October	11:00-12:00	Neurodevelopment at 1.5 years of term babies with congenital heart disease after open heart surgery
id019	P-137	Poster	Monday 9 October	11:00-12:00	Long-term outcomes of children with neonatal transfer: the Japan Environment and Children's Study
id020	P-096	Poster	Monday 9 October	11:00-12:00	Intraoperative transpyloric tube insertion for congenital diaphragmatic hernia: Analysis of Japanese study group data
id021	ON-001	Oral session 1	Saturday 7 October	16:20-17:10	Maintenance of 600g Extremely Preterm Ovine Fetuses equivalent to human 24 weeks for Two Weeks using an Artificial Placenta
id022	P-016	Poster	Monday 9 October	11:00-12:00	Prenatally diagnosed autosomal recessive polycystic disease (ARPKD) - A case report showing rapid deterioration related to the respiratory failure
id023	OO-015	Oral session 5	Sunday 8 October	11:00-11:50	<b>Development and Validation of a Breastfeeding Education and Screening Tool (BEST)</b>
id024	P-144	Poster	Monday 9 October	11:00-12:00	A Decision Aid for Postpartum Adolescent Family Planning: A Quasi-experimental Study in Tanzania
id025	P-051	Poster	Monday 9 October	11:00-12:00	A Case of Pregnancy Complicated with Acquired Haemophilia A and Preeclampsia
id026	P-135	Poster	Monday 9 October	11:00-12:00	Chorioamnionitis and Gestational Age are Associated with Neonatal Hypercalcemia after Maternal Magnesium Sulfate Therapy: A Case-Control Study
id027	P-125	Poster	Monday 9 October	11:00-12:00	<b>Factors affecting portal vein blood flow at birth using ultrasonography</b>
id028	P-007	Poster	Monday 9 October	11:00-12:00	<b>Association Between Gestational Weight Gain and Chronic Disease Risks in Later Life</b>
id029	P-030	Poster	Monday 9 October	11:00-12:00	<b>Is there a merit of caesarean section at 38 gestational weeks for pregnant women with placenta previa?&nbsp;</b>
id030	P-021	Poster	Monday 9 October	11:00-12:00	Role of Venous Doppler in Predicting Perinatal Death in Selective Fetal Growth Restriction without Oligohydramnios
id031	P-124	Poster	Monday 9 October	11:00-12:00	Urinary Biomarkers of Acute Kidney Injury in Very Low Birth-Weight Infants with Severe Asphyxia
id032	P-065	Poster	Monday 9 October	11:00-12:00	Chronological evaluation of cerebral oxygen metabolism indices in preterm infants with NIR-TRS.
id033	P-147	Poster	Monday 9 October	11:00-12:00	<b></b><b>An Analytical Cross-Sectional Study to Determine and Compare the Neonatal Outcome Before and During the Pandemic at UERM Hospital, Philippines</b>
id034	P-017	Poster	Monday 9 October	11:00-12:00	Nutmeg lung pattern on fetal MRI in a critical case of functional single right ventricle with intact atrial septum
id035	P-006	Poster	Monday 9 October	11:00-12:00	Availability of Essential Drugs for Basic Emergency Obstetric and Newborn Care (BEmONC) Services During COVID-19 Pandemic
id036	P-020	Poster	Monday 9 October	11:00-12:00	Pathophysiology of sinusoidal heart rate (SHR) pattern
id037	P-128	Poster	Monday 9 October	11:00-12:00	The Changing Features of Neonatal Intestinal Perforation in&nbsp;&nbsp;&nbsp;Early Term or&nbsp;&nbsp;&nbsp;Low Birth Weight Infants
id038	P-075	Poster	Monday 9 October	11:00-12:00	Congenital skull depression found in the perinatal period in twins

ID	Abstract No.	Session	Day	Time	Title
id039	OO-014	Oral session 5	Sunday 8 October	11:00-11:50	The impact of first arterial blood gas pH after birth on neurodevelopment of periviable infants
id040	P-040	Poster	Monday 9 October	11:00-12:00	Evaluating risk factors of subsequent pregnancy in patients with history of preeclampsia; single institutional retrospective study
id041	P-011	Poster	Monday 9 October	11:00-12:00	Management of 60 pregnant women with SARS-CoV-2 infection in Kyoto City Hospital
id042	P-060	Poster	Monday 9 October	11:00-12:00	Comparison of perinatal characteristics and neonatal outcomes between infants born to Korean family and infants born to Multi-cultural Family
id043	P-133	Poster	Monday 9 October	11:00-12:00	Range of protein induced by vitamin K absence or antagonist-II levels in neonates at birth
id044	P-132	Poster	Monday 9 October	11:00-12:00	Reticulocyte hemoglobin content changes after treatment of anemia of prematurity
id045	P-112	Poster	Monday 9 October	11:00-12:00	Review on the practice of LISA comparing to other modalities of respiratory support in a neonatal unit in Hong Kong
id046	P-036	Poster	Monday 9 October	11:00-12:00	<b>Genetic aspects of small for gestational age infants using targeted exome sequencing and whole exome sequencing</b>
id047	P-046	Poster	Monday 9 October	11:00-12:00	Continuous glucose monitoring and subsequent development of gestational diabetes - Randomised controlled trial of unblinded vs blinded use during pregnancy
id048	P-130	Poster	Monday 9 October	11:00-12:00	<b>Incidence and clinical predictors of hyper-direct bilirubinemia in preterm infants</b>
id049	P-142	Poster	Monday 9 October	11:00-12:00	The Importance of Working with Medical Secretaries ,From the Aspect of&nbsp;Information and Communication Technology (&nbsp;ICT ) Skills
id050	P-037	Poster	Monday 9 October	11:00-12:00	<b>Association between Low Body Mass Index z-score and Neurodevelopment outcome&nbsp;</b><b>at Age 2 Years: A nationwide cohort study</b>
id051	P-003	Poster	Monday 9 October	11:00-12:00	Association between the timing of miscarriage by ultrasound findings and chromosomal abnormality of products of conception in early pregnancy
id052	P-118	Poster	Monday 9 October	11:00-12:00	The process of acquiring heart rate variability in extremely low birth weight infants by Poincaré&acute;n plot analysis (pilot study)
id053	P-074	Poster	Monday 9 October	11:00-12:00	The relationship between body weight and term neonatal body movement measurement using a portable piezoelectric meter
id054	P-094	Poster	Monday 9 October	11:00-12:00	 A Case Report on Congenital Ichthyosis&nbsp;in a Tertiary Government Hospital
id055	P-088	Poster	Monday 9 October	11:00-12:00	Endogenous neural stem cells promote white matter regeneration after neonatal brain injury through the ATF5 pathway
id056	P-126	Poster	Monday 9 October	11:00-12:00	<b>Case report: A Rare Case of Eosinophilic Gastroenteritis in a Neonate with Giant Omphalocele</b>
id057	P-066	Poster	Monday 9 October	11:00-12:00	The Vulnerable Period for Oxygen Supplement in Severe Retinopathy of Prematurity
id058	OO-004	Oral session 2	Saturday 7 October	17:30-18:20	Predictive value of cervical sonoelastography in women with threatened preterm labor
id059	P-027	Poster	Monday 9 October	11:00-12:00	Selective reduction in multifetal pregnancies complicated by pre-viable preterm premature membrane rupture
id060	P-024	Poster	Monday 9 October	11:00-12:00	Next-generation sequencing data analysis of vaginal microbiota in non-pregnant Japanese women of reproductive age
id061	P-078	Poster	Monday 9 October	11:00-12:00	Maternal pre-pregnancy obesity affects uncinate fasciculus white matter tract in diffusion tensor imaging at preterm infants
id062	P-092	Poster	Monday 9 October	11:00-12:00	 Clinical and genetic characteristics of six Korean patients with Kleefstra syndrome
id063	P-097	Poster	Monday 9 October	11:00-12:00	Relationship Between Tacrolimus Blood Concentrations in Dams and Immune Cells in Pups
id064	P-023	Poster	Monday 9 October	11:00-12:00	The role of cervical sonoelastography to predict preterm delivery in twin pregnancy
id065	P-031	Poster	Monday 9 October	11:00-12:00	Analysis of genetic variants as a risk factor involving amniotic fluid embolism
id066	P-093	Poster	Monday 9 October	11:00-12:00	A case of a preterm infant with KBG syndrome and hepatoblastoma : a case report
id067	ON-012	Oral session 3	Sunday 8 October	09:00-09:50	 Geographical Distribution of Antimicrobial Exposure among Very Preterm and Very Low Birth Weight Infants: A Nationwide Database Study in Japan
id068	P-029	Poster	Monday 9 October	11:00-12:00	Comparison of Complications Pre- and Post-partum based on Placental location in Pregnant women with Placenta previa.
id069	P-079	Poster	Monday 9 October	11:00-12:00	Effects of betamethasone and environmental temperatures on neonatal motor and intellectual abilities assessed by mice models
id070	P-064	Poster	Monday 9 October	11:00-12:00	A Case of Fetal Extreme Hyperlordosis
id071	P-018	Poster	Monday 9 October	11:00-12:00	Fetal eye disease can be found by basic prenatal ultrasound checkups. A case report: prenatal diagnosis of Norrie disease
id072	P-041	Poster	Monday 9 October	11:00-12:00	<b>Exploratory research for genetic alterations of complement regulators in pregnant women with HELLP syndrome</b>
id073	P-042	Poster	Monday 9 October	11:00-12:00	<b>Clinical prediction model to labor outcomes using partogram by deep learning &ndash; A retrospective case-control study</b>
id074	P-141	Poster	Monday 9 October	11:00-12:00	<b></b>Maternity app 'Hi(gh)Mom' in South Korea: Evaluation of the effectiveness of mobile app interventions for healthy pregnancy care
id075	ON-011	Oral session 3	Sunday 8 October	09:00-09:50	Association between Family Centered Care and Discharge Criteria in Preterm Infants: Retrospective Study in Two NICUs in Finland and Japan
id076	P-102	Poster	Monday 9 October	11:00-12:00	Risk Factors of Refractory Respiratory Distress Syndrome among Very Low Birth Weights Infants

ID	Abstract No.	Session	Day	Time	Title
id078	P-072	Poster	Monday 9 October	11:00-12:00	Effects of Plant-Based Oils with Massage Therapy and Skin-to-Skin Contact to Preterm Infants: A Systematic Review
id079	P-050	Poster	Monday 9 October	11:00-12:00	A nationwide study of postpartum depression among women in South Korea during COVID-19 pandemic
id080	P-009	Poster	Monday 9 October	11:00-12:00	Comparison of perinatal outcomes of past and current COVID-19 infection in pregnant women
id081	P-108	Poster	Monday 9 October	11:00-12:00	<b>The revision of the Japanese BPD classification based on its etiology for early prognostic prediction and therapeutic intervention</b>
id082	P-043	Poster	Monday 9 October	11:00-12:00	A Case Of PRES In The Medulla Oblongata On MRI After Eclampsia In An Undiagnosed Pregnant
id083	P-103	Poster	Monday 9 October	11:00-12:00	Association of polymorphism of hyaluronan and proteoglycan link protein 1 with the risk of bronchopulmonary dysplasia in preterm neonates
id084	P-117	Poster	Monday 9 October	11:00-12:00	The risk factors and the causes for death in infants with congenital chylothorax.
id085	ON-005	Oral session 1	Saturday 7 October	16:20-17:10	Risk factors of growth retardation in children with congenital diaphragmatic hernia
id086	P-028	Poster	Monday 9 October	11:00-12:00	Aortic balloon occlusion for high-risk cases of placenta accreta
id087	P-032	Poster	Monday 9 October	11:00-12:00	Transcatheter Arterial Embolization Using N-Butyl-2-cyanoacrylate (NBCA) as the First Choice for Postpartum Vulvovaginal Hematoma
id088	ON-013	Oral session 5	Sunday 8 October	11:00-11:50	<b>Recent changes of conservative treatment strategy for symptomatic PDA in extremely preterm infants in Korea</b>
id089	P-045	Poster	Monday 9 October	11:00-12:00	<b>Annual BMI Changes and Risk of Hypertensive Disorders of Pregnancy: Insights for Interpregnancy Care from a Large-Scale Multicenter Retrospective Study</b>
id090	P-067	Poster	Monday 9 October	11:00-12:00	The Asian Neonatal Network (AsianNEO) for Management of Very Sick Newborn Infants : International Survey
id091	P-104	Poster	Monday 9 October	11:00-12:00	Pressure Evaluation of Nasal Continuous Positive Airway Pressure Cannula Using a New Connector and Respiratory Simulator
id092	P-139	Poster	Monday 9 October	11:00-12:00	Implementation of Integrated Child Health Checkup (IHC) at Primary Health Care (PHC) in Denpasar
id093	P-101	Poster	Monday 9 October	11:00-12:00	Effect of Kangaroo Mother Care on Neonatal Infections: A Meta-analysis
id094	P-022	Poster	Monday 9 October	11:00-12:00	Preliminary Outcomes of Cervical Cerclage for Shortened Cervix with Decidual Polyp
id095	P-005	Poster	Monday 9 October	11:00-12:00	Knowledge, Attitudes, and Practices on Breastfeeding Among Women in the National Capital Region (NCR) During the COVID-19 Pandemic
id096	P-114	Poster	Monday 9 October	11:00-12:00	<b>Early echocardiographic pulmonary artery measurements as prognostic indicators in left congenital diaphragmatic hernia</b>
id097	P-054	Poster	Monday 9 October	11:00-12:00	The Risk of Premature Hypertension and Diabetes According to Fetal Birthweight in Normal BMI Women
id098	OO-001	Oral session 2	Saturday 7 October	17:30-18:20	<b>The association of low fetal fraction in cell-free DNA and adverse pregnancy outcome in twin pregnancy</b>
id099	P-105	Poster	Monday 9 October	11:00-12:00	Risk factors and clinical outcomes of extubation failure in very early preterm infants: A single-center cohort study
id100	P-090	Poster	Monday 9 October	11:00-12:00	<b>Neonatal giant cervical cystic lymphatic malformation treated with oral sirolimus after birth by Ex utero intrapartum treatment (EXIT)</b>
id101	P-068	Poster	Monday 9 October	11:00-12:00	Effects of Birth Height on the Catch-up Growth at 3 years of age among Small-for-Gestational Age Very Low Birth Weight Infants
id102	P-002	Poster	Monday 9 October	11:00-12:00	Association of Assisted Reproductive Technologies With Arterial Hypertension During Newborn.
id103	P-127	Poster	Monday 9 October	11:00-12:00	<b>Oral administration of bone marrow-derived mesenchymal stem cells attenuates intestinal injury in a neonatal mouse model of necrotizing enterocolitis</b>
id104	P-056	Poster	Monday 9 October	11:00-12:00	The Effects of COVID-19 on Progression of Labour: Based on Our Three Years' Experiences
id105	ON-002	Oral session 1	Saturday 7 October	16:20-17:10	Alcohol Exposure Among Premature Infants in Neonatal Incubators: Proposal of a Newly Designed Practice to Reduce Alcohol Exposure
id106	ON-007	Oral session 3	Sunday 8 October	09:00-09:50	Early postnatal predictors of intraventricular hemorrhage using machine learning algorithms in VLBWIs: Analysis of a Korean Neonatal Network Database
id107	ON-004	Oral session 1	Saturday 7 October	16:20-17:10	Impact of late pulmonary hypertension on long-term survival or neurodevelopment in extremely preterm infants having prior severe bronchopulmonary dysplasia
id108	P-131	Poster	Monday 9 October	11:00-12:00	Phototherapy for neonatal jaundice can change the affinity of bilirubin-albumin bindin
id109	ON-008	Oral session 3	Sunday 8 October	09:00-09:50	Quantified Assessment of General Movements in Neonates for Early Detection of Neurodevelopmental Impairments Using Radar-based Machine Learning Method
id110	P-069	Poster	Monday 9 October	11:00-12:00	Evaluation of postnatal complications in clinical and histological chorioamnionitis in extremely preterm infants: A Japanese cohort study
id111	P-034	Poster	Monday 9 October	11:00-12:00	<b>The correlation between the level of sFlt-1/PlGF ratio and the placental pathology relevant to maternal and fetal vascular malperfusion</b>
id112	P-012	Poster	Monday 9 October	11:00-12:00	A Multicenter Study of Early- Onset and Late-Onset Group B Streptococcal Disease, 2017&ndash;2021
id113	P-055	Poster	Monday 9 October	11:00-12:00	Impact of Cesarean&nbsp;Section on Postpartum Fertility and Dysmenorrhea
id114	P-140	Poster	Monday 9 October	11:00-12:00	Our approach for the management of intrauterine fetal deaths and artificial abortions using labor analgesia managed by anesthesiologists.
id115	P-109	Poster	Monday 9 October	11:00-12:00	Growth retardation during infancy and childhood in survivors with congenital diaphragmatic hernia

ID	Abstract No.	Session	Day	Time	Title
id116	OO-013	Oral session 4	Sunday 8 October	10:00-10:50	Diurnal Variation of the Vaginal Microbiota in Pregnant Women
id117	P-116	Poster	Monday 9 October	11:00-12:00	Effects of milrinone in neonates after patent ductus arteriosus ligation: A retrospective nationwide database study
id118	P-061	Poster	Monday 9 October	11:00-12:00	The Effects of Pelvic Artery Embolization for Postpartum Hemorrhage to Subsequent Pregnancies: A Single Center Retrospective Cohort Study
id119	P-106	Poster	Monday 9 October	11:00-12:00	<b>Intravenous injection of human umbilical cord-derived mesenchymal stromal cells attenuates hyperoxia-induced lung injury in newborn mice</b>
id120	ON-009	Oral session 3	Sunday 8 October	09:00-09:50	<b>Hydrogen gas combined with therapeutic hypothermia can ameliorate seizure burden after hypoxic-ischemic insult in piglet</b>
id121	P-033	Poster	Monday 9 October	11:00-12:00	<b>Proposal for early detection of life-threatening postpartum hemorrhage: a simple technique &ldquo;5-second rule&rdquo; following clot evacuation</b>
id122	P-084	Poster	Monday 9 October	11:00-12:00	Ameliorated brain injury in neonatal hypoxic-ischemic encephalopathy by M1-like microglia depletion.
id123	OO-003	Oral session 2	Saturday 7 October	17:30-18:20	New Insights; Amniotic Fluid-Derived Extracellular Vesicles Specific for Severe Congenital Diaphragmatic Hernia
id124	ON-010	Oral session 3	Sunday 8 October	09:00-09:50	<b>Implementation research on introducing Vayu Bubble Continuous Positive Airway Pressure (Vayu CPAP) in Bangladesh</b>
id125	P-087	Poster	Monday 9 October	11:00-12:00	<b>Impact on Cardiac Function of Hydrogen Gas Inhalation after Hypoxic-ischemic Insult in Asphyxiated Piglet</b>
id126	P-148	Poster	Monday 9 October	11:00-12:00	Implication of Acquiring Oxidative Stress Resistance in Chorioamnionitis Leading to Reduced Risk of Severe Retinopathy of Prematurity
id127	P-085	Poster	Monday 9 October	11:00-12:00	<b>Changes in near-infrared light scattering coefficient after hypoxic-ischemic insult in piglet</b>
id128	P-057	Poster	Monday 9 October	11:00-12:00	Can we predict dystocia?
id129	P-035	Poster	Monday 9 October	11:00-12:00	<b>Cytokine profiling in amniotic fluid retrieved during cesarean delivery in uncontrolled preeclampsia women with fetal growth restriction</b>
id130	P-122	Poster	Monday 9 October	11:00-12:00	Association of random urinary calcium/creatinine ratio with medullary nephrocalcinosis in preterm infants
id131	P-129	Poster	Monday 9 October	11:00-12:00	Monitoring of Urinary Lumirubin&nbsp;&nbsp;&nbsp;Excretion&nbsp;&nbsp;&nbsp;during Phototherapy
id132	P-063	Poster	Monday 9 October	11:00-12:00	Case report: Pregnancy in a patient with a malignant brain tumor taking&nbsp;&nbsp;&nbsp;cyclic administrations of Temozolomide
id133	P-010	Poster	Monday 9 October	11:00-12:00	Evaluating&nbsp;&nbsp;&nbsp;perinatal outcomes&nbsp;&nbsp;&nbsp;before and&nbsp;&nbsp;&nbsp;after COVID-19pandemic;&nbsp;&nbsp;&nbsp;a single-institutional retrospective cohort study
id134	P-019	Poster	Monday 9 October	11:00-12:00	Contemporary experience of polyhydramnios: A single-center experience
id135	P-083	Poster	Monday 9 October	11:00-12:00	<b>Is the relationship between CBV and ScO<sub>2</sub></b> during therapeutic hypothermia in infants with <b>hypoxic-ischemic encephalopathy</b> indicative of prognosis?</b>
id136	P-143	Poster	Monday 9 October	11:00-12:00	Sustainable Quality Improvement Education in Healthcare: Experience in Bhutan
id137	P-071	Poster	Monday 9 October	11:00-12:00	Use of Vermont Oxford Network (VON) database for benchmarking and improving outcomes in very premature infants
id138	P-107	Poster	Monday 9 October	11:00-12:00	Changes in electrical activity of the diaphragm (Edi)&nbsp;&nbsp;&nbsp;in preterm infants treated with doxapram hydrochloride
id139	OO-007	Oral session 4	Sunday 8 October	10:00-10:50	Relation between retroverted uterus with endometriosis and pregnancy complicated by placenta previa/ low-lying placenta.
id140	P-100	Poster	Monday 9 October	11:00-12:00	Mathematical modelling of RSV transmission and estimating the impact of novel pharmaceutical approaches in Japan
id141	P-025	Poster	Monday 9 October	11:00-12:00	Introduction of Little Baby Handbook as a tool to support families in the care of low birthweight and preterm infants
id142	P-044	Poster	Monday 9 October	11:00-12:00	Gestational hypertension and risk of atopic disease in offspring
id143	P-062	Poster	Monday 9 October	11:00-12:00	Management of Urgent Caesarean Section in COVID-19: A Case Report
id144	OO-011	Oral session 4	Sunday 8 October	10:00-10:50	Bishop score versus transvaginal sonographic parameters: What could be more helpful in predicting successful induction of labor?
id145	P-076	Poster	Monday 9 October	11:00-12:00	<b>Preterm birth risk between cerclage operation and vaginal progesterone </b> <b>in short cervical length during twin pregnancy&nbsp;&nbsp;&nbsp;</b>
id146	P-053	Poster	Monday 9 October	11:00-12:00	Reasons for cesarean delivery on maternal request in subsequent pregnancies after vaginal delivery
id147	P-136	Poster	Monday 9 October	11:00-12:00	<b>A nationwide survey of Neonatal Pseudohypaldosteronism Type-1 in Japan</b>
id148	P-082	Poster	Monday 9 October	11:00-12:00	Determination of First Blood Base Excess after Birth Is an Accessory or Not?
id149	OO-005	Oral session 2	Saturday 7 October	17:30-18:20	Chorioamnionitis with poor perinatal outcome: A 20-year regional population-based study
id150	P-119	Poster	Monday 9 October	11:00-12:00	Hemodynamic Evaluation of Extremely Low Birth Weight Infants during First 7 days of Life.
id151	OO-008	Oral session 4	Sunday 8 October	10:00-10:50	Pregnancy outcomes in women following adenomyomectomy and women with adenomyosis
id152	OO-002	Oral session 2	Saturday 7 October	17:30-18:20	The impact of COVID-19 on Cytomegalovirus Immunoglobulin M antibody titer
id153	P-058	Poster	Monday 9 October	11:00-12:00	<b>Delta angle of progression; a novel parameter to predict labor arrest requiring operative delivery</b>
id154	OO-012	Oral session 4	Sunday 8 October	10:00-10:50	<b>Perinatal outcomes of fentanyl intravenous patient-controlled analgesia method during labor in women with spontaneous labor or elective induction</b>
id155	P-073	Poster	Monday 9 October	11:00-12:00	Total Hydrocortisone Dosage in the Neonatal Period Is Related to Developmental Quotient Deterioration in Extremely Low Birth Weight Infants

ID	Abstract No.	Session	Day	Time	Title
id156	P-086	Poster	Monday 9 October	11:00-12:00	Atlas-based white matter brain analysis using diffusion tensor images in preterm infants
id157	P-146	Poster	Monday 9 October	11:00-12:00	Establishment of PHOX2B-GFP reporter iPS cell lines derived from healthy individuals and congenital central hypoventilation syndrome patients.
id158	withdraw				withdraw
id159	P-110	Poster	Monday 9 October	11:00-12:00	Acquired laryngeal stenosis after tracheal intubation: The most challenging cause of decannulation failure.
id160	P-115	Poster	Monday 9 October	11:00-12:00	Effect of antenatal steroid on postnatal hemodynamics in very low birth weight infants
id161	P-047	Poster	Monday 9 October	11:00-12:00	A case of pregnancy complicated with Marfan syndrome diagnosed genetically in mid-trimester and underwent vaginal delivery with labor analgesia.
id162	P-080	Poster	Monday 9 October	11:00-12:00	Delivery room intubation and neurodevelopment at 3 years among infants born extremely preterm: A retrospective cohort study in Japan
id163	P-048	Poster	Monday 9 October	11:00-12:00	Maternal and neonatal outcomes of women with Rheumatoid Arthritis in Japan: An Analysis of Real-World Data from Nationwide Claims-Based Database
id164	P-098	Poster	Monday 9 October	11:00-12:00	Appropriate use of antibiotics using a serum procalcitonin 95%ile cutoff value for neonatal early-onset bacterial infections
id165	P-145	Poster	Monday 9 October	11:00-12:00	Identification of fetal-derived miRNAs and mRNAs in amniotic fluid and maternal plasma for assessment fetal maturity.
id166	P-134	Poster	Monday 9 October	11:00-12:00	An autopsy case of a preterm infant with rapidly enlarging Congenital Pulmonary Airway Malformations (CPAM) Type 3
id167	P-077	Poster	Monday 9 October	11:00-12:00	Grand multiparity in developed country: a single institution cohort study
id168	P-015	Poster	Monday 9 October	11:00-12:00	Elevated cardiac nitric-oxide and renal activated-C5a in a neonatal sepsis model were alleviated by a C5a inhibitor*.
id169	P-026	Poster	Monday 9 October	11:00-12:00	REQUIRED BIOLOGICAL TIME FOR LUNG MATURATION AND DURATION OF INVASIVE VENTILATION
id170	P-001	Poster	Monday 9 October	11:00-12:00	Identification of microRNAs derived from fertilized embryos in culture medium as useful molecular markers of for pregnancy
id171	P-014	Poster	Monday 9 October	11:00-12:00	Improving the newly-born cord blood APR-score, with the addition of an oxidative stress marker for the early diagnosis of chorioamnionitis
id172	P-070	Poster	Monday 9 October	11:00-12:00	The Clinical Course of a Male Infant Born Weighing 268 Grams at 24 Weeks Gestation
id173	OO-009	Oral session 4	Sunday 8 October	10:00-10:50	Impacts of Cesarean Section on mother's and parenting stress in a Japanese Birth Cohort: The Japan Environment and Children's Study
id174	P-089	Poster	Monday 9 October	11:00-12:00	SHED ameliorate neurological impairment in rat model of cerebral palsy even when administered in the chronic phase, by enhancing neurogenesis.
id175	P-004	Poster	Monday 9 October	11:00-12:00	A Case of Correction of Metabolic Alkalosis in the Second Trimester of Pregnancy led to a Favorable Delivery Outcome
id176	P-113	Poster	Monday 9 October	11:00-12:00	Lung ultrasound and blood gases changes in a characterised ventilatory-induced lung injury and respiratory distress model in a newborn piglet.
id177	P-120	Poster	Monday 9 October	11:00-12:00	Prediction of coronary events by tricuspid regurgitation in pulmonary atresia with intact ventricular septum
id178	OO-010	Oral session 4	Sunday 8 October	10:00-10:50	CHILDBIRTH PROJECTION IN PHILIPPINE HEALTH FACILITIES: IMPACT OF COVID-19 PANDEMIC AND LOCKDOWN
id179	P-049	Poster	Monday 9 October	11:00-12:00	A case of pregnancy complicated with type III Osteogenesis imperfecta
