

ID	Session Style	Theme	Date	Time	Title
id001	International Session (Oral)	Ovary 1	Friday, July 19	08:40-09:40	Laparoscopic-Assisted Fertility-Sparing Surgery for Growing Teratoma Syndrome of the Ovary: Experience From a Tertiary Center
id003	International Workshop	Ovary	Saturday, July 20	08:40-09:45	Hyperthermic Intraperitoneal Chemotherapy for Stage IV Epithelial Ovarian Cancer: A Critical Appraisal of Indications and Clinical Implications
id004	IS Poster	Ut. Corpus	Friday, July 19	17:40-18:40	Adjuvant radiotherapy in FIGO 2023 stage I-II endometrial cancer with intermediate and high-intermediate risk
id005	International Workshop	Ovary	Saturday, July 20	08:40-09:45	Pelvic ultrasound-based deep learning models for accurate diagnosis of ovarian cancer: retrospective multicenter study
id006	IS Poster	Ovary	Friday, July 19	17:40-18:40	The outcomes of women treated for adult-type granulosa cell tumor of the ovary
id007	IS Poster	Ut. Corpus	Friday, July 19	17:40-18:40	Is safe omitting pelvic lymphadenectomy in patients with grade-3 endometrioid endometrial cancer staged IA?
id008	International Session (Oral)	Ut. Cervix 2	Friday, July 19	10:45-11:45	Radical Hysterectomy versus Pimary Chemoradiation for Cervical Cancer with Preoperative Lymph Node Metastasis and No Parametrial Involvement
id009	International Workshop	Ovary	Saturday, July 20	08:40-09:45	Effect of high-dose polymeric nanoparticle micellar paclitaxel on improved survival in patients with optimally resected advanced high-grade carcinoma of ovary
id010	International Workshop	Ut. Cervix	Friday, July 19	09:40-10:45	Tisotumab Vedotin Versus Chemotherapy in 2L or 3L Recurrent/Metastatic Cervical Cancer: Global, Randomized, Open-Label, Phase 3 Study (innovaTV 301/ENGOT-cx12/GOG-3057)
id011	International Session (Oral)	Ovary 2	Friday, July 19	14:35-15:35	NAC1/ACOX2 axis as a novel therapeutic target for ovarian cancer
id012	International Workshop	Ut. Corpus	Saturday, July 20	10:45~11:50	Assessment of immune status in patients with mismatch repair deficiency endometrial cancer
id013	International Workshop	Ut. Cervix	Friday, July 19	09:40-10:45	Application of HPV Integration Test among HPV-positive Women After Cervical Conization: an Observational Cohort Study
id015	International Session (Oral)	Ut. Cervix 2	Friday, July 19	10:45-11:45	Serum immune parameters as predictors for treatment outcomes in cervical cancer treated with concurrent chemo-radiotherapy
id016	IS Poster	Ut. Cervix	Friday, July 19	17:40-18:40	CD112 Promotes the Progression of Cervical Cancer Through SLC7A11/GPX-4 Pathways
id017	IS Poster	Others	Friday, July 19	17:40-18:40	Knowledge, attitudes, Current practices toward lung cancer palliative care management in China: national survey
id018	IS Poster	Ovary	Friday, July 19	17:40-18:40	Early palliative care Patients with ovarian cancer randomised controlled trial in Southwest China
id019	International Session (Oral)	Others	Saturday, July 20	09:45-10:45	Nutritional status assessment for patients with gynaecological cancers in a cancer hospital of Southwest China
id020	IS Poster	Ut. Cervix	Friday, July 19	17:40-18:40	Could HLA-DPB2 rs4713607 and rs3117039 Polymorphisms Detection Benefit HR-HPV Triage Based on HPV Primary Screening for Cervical Cancer?
id021	IS Poster	Ut. Cervix	Friday, July 19	17:40-18:40	Metabolite N-acetyl-glutamine produced by Gardnerella vaginalis promotes the malignant transformation of HPV18-infected cervical cancer cell
id022	IS Poster	Others	Friday, July 19	17:40-18:40	Safety assessment of concurrent vaccination with COVID-19 vaccine and HPV vaccine

ID	Session Style	Theme	Date	Time	Title
id023	International Session (Oral)	Ut. Cervix 1	Friday, July 19	09:00-10:00	Comparing High-risk Human Papillomavirus E6/E7 mRNA and DNA Tests in Predicting Recurrence / residual Disease in HSIL Patients after Conization
id024	IS Poster	Ovary	Friday, July 19	17:40-18:40	Serine/threonine / Kinase 11 (STK11) Associated Adnexal Tumors: 2 Case Reports and Literature Review in the Gynecological Rare Disease
id025	IS Poster	Ut. Cervix	Friday, July 19	17:40-18:40	Assessment of risk factors for high-grade cervical or endometrial lesions to triage women with AGC-FN : A retrospective study.
id026	IS Poster	Ut. Corpus	Friday, July 19	17:40-18:40	The Metabolic-Inflammatory-Nutritional Score is Associated with Lymph node Metastasis and Prognostic Stratification Endometrial Cancer Patients
id028	IS Poster	Ut. Corpus	Friday, July 19	17:40-18:40	High Glucose Partly Dependens on ERR $\alpha$ Regulating Glycolysis Lipid Metabolism Levels and Inhibiting Autophagy to Promote EC Cell Growth
id029	International Session (Oral)	Ut. Cervix 1	Friday, July 19	09:00-10:00	Deciphering shared pathogenic genes and potential pathogenesis between Gardnerella Vaginalis infection and persistent HPV16 infection by integrating multiple datasets
id030	International Session (Oral)	Ovary 1	Friday, July 19	08:40-09:40	Advantages of Single-port Laparoscopy in the Treatment of Benign Ovarian Tumors in Children and Adolescents: A Multicenter Retrospective Study
id031	IS Poster	Ovary	Friday, July 19	17:40-18:40	Magnetic resonance imaging for differentiating ovarian endometrioid carcinoma from clear cell carcinoma
id032	International Session (Oral)	Ut. Cervix 2	Friday, July 19	10:45-11:45	Prognostic Predicting Factors for Recurrence/ residual Disease in HSIL Patients after LEEP : A Retrospective Study Based on Ambulatory Surgery
id033	International Session (Oral)	Ut. Cervix 2	Friday, July 19	10:45-11:45	Risk factors of positive endocervical curettage (ECC) and the predictive model construction based on primary human papillomavirus (HPV) screening
id034	International Session (Oral)	Ovary 1	Friday, July 19	08:40-09:40	Survival and clinical outcomes of controlled suction technique with minimal spillage in cancer patients presented with huge ovarian cyst
id035	IS Poster	Ut. Cervix	Friday, July 19	17:40-18:40	Correlation between pelvic diameter and different surgical procedures for exogenous cervical leiomyoma
id036	IS Poster	Ut. Cervix	Friday, July 19	17:40-18:40	Cryoablation combined with anti-PD-1 immunotherapy enhances systemic antitumor effects in murine model of cervical cancer
id037	IS Poster	Others	Friday, July 19	17:40-18:40	A protocol for development and pilot test of personalized decision aid for decision-making of fertility preservation in cancer patients
id038	International Session (Oral)	Ut. Cervix 1	Friday, July 19	09:00-10:00	MGMT Methylation Is Associated with Human Papillomavirus Infection in CIN patients
id039	IS Poster	Ut. Cervix	Friday, July 19	17:40-18:40	The influence of the early surgical period in robotic radical hysterectomy on the recurrence in stage IB cervical cancer
id040	International Workshop	Ut. Cervix	Friday, July 19	09:40-10:45	Analysis of overall survival rate when cervical cancer patients participated in clinical trials of immunotherapy drug.
id041	International Workshop	Basic	Friday, July 19	13:30-14:35	The Role of Vaginal Microbiome Composition to HPV Recurrence in Vaccinated Young Korean Women
id042	International Workshop	Basic	Friday, July 19	13:30-14:35	Impact Of Wound Healing On Residual Tumors During The Perioperative Period: MRNA Sequencing Analysis In A Syngeneic Mouse Model
id043	IS Poster	Ut. Cervix	Friday, July 19	17:40-18:40	Development and validation of artificial intelligence-based analysis software to support screening system of cervical intraepithelial neoplasia

ID	Session Style	Theme	Date	Time	Title
id044	International Workshop	Basic	Friday, July 19	13:30-14:35	Comprehensive Genomic Profiling and Prognostic Analysis of Intermediate and Late-Stage Cervical Cancer atients Receiving Radical Radiochemotherapy
id045	International Session (Oral)	Ut. Cervix 2	Friday, July 19	10:45-11:45	Validity of Health-Related Quality of Life Instruments with HINT-8 in Korean Adult Cervical Cancer patients
id046	International Workshop	Ovary	Saturday, July 20	08:40-09:45	Primary Endpoint in Expansion Cohort of Phase II KGOG3046/TRU-D Study: Durvalumab+Tremelimumab with Front-Line Neoadjuvant Chemotherapy in Ovarian Cancer
id047	IS Poster	Ovary	Friday, July 19	17:40-18:40	Comparative analysis of heterogeneity between primary ovarian cancer tissue and metastatic tissue in a advanced high-grade serous ovarian cancer patient
id048	IS Poster	Others	Friday, July 19	17:40-18:40	Dyslipidemia Is Positively Associated with Chronic Low Back Pain in Korean Women: Korean National Health and Nutrition Examination Survey 2010-2012
id049	International Session (Oral)	Ut. Cervix 1	Friday, July 19	09:00-10:00	Dyslipidemia is Positively associated with Cervical cancer in Korea: Korean national health and nutrient examination survey 2010-2020
id050	IS Poster	Ut. Corpus	Friday, July 19	17:40-18:40	Prognostic Significance of ER, PR and P53 Mutation by Histological Type in Postmenopausal Women with Early-Stage Endometrial Cancer
id051	International Session (Oral)	Ovary 1	Friday, July 19	08:40-09:40	Impact of first-line bevacizumab on survival outcomes in advanced ovarian clear cell carcinoma
id052	International Session (Oral)	Ovary 1	Friday, July 19	08:40-09:40	Comparisons of survival outcomes between bevacizumab and PARP inhibitors in BRCA-mutated, platinum-sensitive relapsed high-grade serous ovarian cancer
id053	International Session (Oral)	Others	Saturday, July 20	09:45-10:45	Comparisions between DaVinci single-site and SP robot lymphadenectomy
id054	IS Poster	Others	Friday, July 19	17:40-18:40	Clinical outcomes in patients with isolated serous tubal intraepithelial carcinoma (STIC): Multicenter retrospective cohort study
id055	International Session (Oral)	Ut. Cervix 1	Friday, July 19	09:00-10:00	Factors Influencing Recurrence-Free Outcomes in Patients With Positive Margins After Loop Electrosurgical Excisional Procedure (LEEP) Conization
id056	IS Poster	Ovary	Friday, July 19	17:40-18:40	Evaluation on Image of Serous Ovarian Cystadenofibroma: A Case Report
id057	IS Poster	Ut. Cervix	Friday, July 19	17:40-18:40	Risk Factors Associated with Residual Lesions in Subsequent Hysterectomy After Loop Electrosurgical Excision Procedure
id058	IS Poster	Ut. Corpus	Friday, July 19	17:40-18:40	Correlation between Mismatch Repair status and lymph node metastasis in endometrial cancer
id059	IS Poster	Ut. Corpus	Friday, July 19	17:40-18:40	Laparotomy versus Minimally Invasive Surgery in Early-stage Endometrial Cancer: 2023 FIGO stage-based analysis
id060	IS Poster	Ut. Cervix	Friday, July 19	17:40-18:40	Comparison of Squamous cell carcinoma, Adenocarcinoma and Adenosquamous carcinoma Prognosis in Cervical cancer following Hysterectomy
