

TUESDAY, MAY 27, 2025**Room 1 (Emerald)**

12:00 - 12:50	Industry Lunch (Sponsored Takeda Pharmaceutical Company Limited)	CHAIR:
		Toshihiko Watanabe
NO.	TITLE	PRESENTER
	Basic Research of GLP-2 and Efficacy and Safety of Teduglutide for Short Bowel Syndrome	Tatsuru Kaji
12:55 - 13:00	President Welcome	GREETING:
		Satoshi Ieiri
13:00 - 14:25	Session I Plenary Session (Award +)	CHAIR:
		Satoshi Ieiri
		Katherine Bersness
		Shawn Peter
NO.	TITLE	PRESENTER
	Robotic salvage techniques for complex pyeloplasty reconstructions	Haider Ali Khan Riaz
	EVALUATING FOR ASYMPTOMATIC CONTRALATERAL HERNIA DURING PEDIATRIC INGUINAL HERNIA REPAIR: A MULTI-INSTITUTIONAL RETROSPECTIVE STUDY	Stephanie Brierley
	Development of a 0.85mm Ultra-Fine Sized Endoscope: Comparison of Resolution between it and Devices Commonly Using in Pediatric Surgery	Tomohiro Aoyama
	Thoracoscopic Internal Traction for Long-Gap Esophageal Atresia: Outcomes, Challenges, and Complications	Ulgen Celtik
	Development of a Novel Computer Vision Model for Signal Optimization Using Visible and Near-Infrared Fluorescence (NIRF) Imaging in Laparoscopic Cholecystectomy	Brian Quaranto
	Robotic Gynecological Surgery: a Single Center Experience and Literature Review	Carlo Maria Ferlini
	Creative low-cost solutions for affordable pediatric endoscopic surgery training using locally available low-priced, everyday items	Shoma Koga
	Laparoscopic Stapled Anastomosis for Congenital Duodenal Obstruction: Superior Outcomes and Efficiency Compared to Hand-Sewn Techniques	Nathan Novotny
	NIR-Guided Thoracoscopic Anatomical Pulmonary Segmentectomy in Infants: Efficacy of Transbronchoscopic Injection of Indocyanine Green for Intersegmental Plane Identification	Yao Liu
14:25 - 15:20	Session II Basic Science & Innovation (Award +)	CHAIR:
		Mark Wulkan
		Holger Till
		Miguel Guelfand
NO.	TITLE	PRESENTER
	Preoperative patient-specific simulation to support education and quality of care: the introduction of Virtual Reality in Pediatric Surgery.	Ugo Maria Pierucci
	MAGNETIC GASTROESOPHAGEAL ANASTOMOSIS IN AN UNUSUAL CASE OF HIATAL APLASIA	Oliver Muensterer
	Chemocauterization Technique for Pyriform Sinus Fistula Using a Distal Hooded Endoscope	Shojiro Hanaki

TUESDAY, MAY 27, 2025

	"Innovative Laparoscopic Latero-Lateral Pancreatojejunostomy with ICG for Pediatric Chronic Pancreatitis". (VIDEO)	Silvana Prodan
	VR images are helpful in simulating laparoscopic approaches to pediatric retroperitoneal tumors.	Shuhei Kogata
	VIDEO-ASSISTED ANAL FISTULA TREATMENT (VAAFT) AND POSTOPERATIVE WOUND DRESSING WITH OZONIDE OIL: NEW TREATMENT PROTOCOL FOR PEDIATRIC PATIENTS WITH ANAL FISTULA.	Francesca Carraturo
	What is the optimal usage and selection of energy devices in pediatric endosurgery? Verification study of thermal effect of energy device using simulator based on fundamental use of surgical energy (FUSE)	Masakazu Murakami
	S1P/S1PR4 Promotes the Differentiation of CD8+TRM Cells Aggravating Bile Duct Injury in Biliary Atresia	Dayan Sun
15:20 - 16:00	Coffee Break	
16:00 - 16:50	Session IV Thoracic I	CHAIR:
		Samir Pandya
		Maximiliano Maricic
NO.	TITLE	PRESENTER
	Historical analysis of thoracoscopic surgery for congenital diaphragmatic hernia by a multicenter study and systematic review	Masaya Yamoto
	Modified Endoscopic Vacuum-Assisted Closure (E-VAC) Technique for Treating Esophageal Anastomotic Leakage and Esophageal Perforation	Dingding Wang
	Thoracoscopic anatomical lesion resection versus thoracoscopic multi-segmentectomies in treating patients with congenital lung malformations : a retrospective case-controlled study	Taozhen He
	Complex Sub Lobar Resections for Pulmonary Metastatic Lesions Using Fluorescence Guided Surgery With Pafolacianine	Alyssa Vaughn
	Risk factors for poor visualization during Thoracoscopic surgery for Congenital Cystic Lung Lesions.	Miho Watanabe
	Tension-Free Thoracoscopic Repair of Congenital Diaphragmatic Hernia	Koichi Deguchi
	Opening the Front Door or the Back Door: Approaches to Acquired Diaphragmatic Hernia Repair	Shin Miyata
	Early Experience with Indocyanine Green Fluorescence-Guided Thoracic Duct Ligation in Pediatric Minimally Invasive Surgery	Jorge Colín-Garnica

Room 2 (Crystal Garden A)

10:00 - 12:00	Pre-Congress ICG Workshop (Sponsored Stryker)	CHAIR:
		Philipp Szavay
NO.	TITLE	PRESENTER
	Fluorescence-Guided Surgery in Pediatrics	Steven Rothenberg
	Fluorescence-Guided Surgery in Pediatrics	Miguel Guelfand

TUESDAY, MAY 27, 2025

14:45 - 15:20	Session III Gastrointestinal I	CHAIR:
		Ashwin Pimpalwar
		Hiroo Uchida
		Maurizio Pacilli
NO.	TITLE	PRESENTER
	Randevous Expectant Dilation for Post Corrosive Mid Esophageal Stricture: Early Experience	Sherif Shehata
	Laparoscopic Gastric Pull-Up for Pediatric Esophageal Replacement: Enhanced Techniques and Long-Term Outcomes	Luis Andrade
	Thal Fundoplication: An effective alternative technique for Gastroesophageal Reflux Disease in children and adolescents	Minori Ishii
	A novel technique for making laparoscopic pyloromyotomy safer and easier to perform	Kan Suzuki
	Laparoscopic extraperitoneal pouch splenopexy for treatment of wandering spleen: a surgical technique video.	Marcelo Rombaldi
	Short-Term Outcomes in Pediatric Achalasia Cardia: A Single Centre Retrospective Review of Pediatric Heller's Cardiomyotomy	Anjan Dhua
16:00 - 16:50	Session V Oncology	CHAIR:
		Atul Sabharwal
		Hau D. Le
		Julia Syed
NO.	TITLE	PRESENTER
	Laparoscopic-assisted Open Resection of a Type IV Sacrococcygeal Teratoma in a Toddler: A Novel Minimally Invasive Technique for a Rare Congenital Anomaly	Eduardo Perez
	The optimal port layout according to tumor laterality by analyzing precise tumor location of primary adrenal neuroblastoma	Keisuke Yano
	Trans-umbilical laparoscopic left retroperitoneal tumors resection through posterior fascia of pancreas and anterior prerenal space: a new surgical approach.	Jiangbin Liu
	Successful Laparoscopic Distal Pancreatectomy for Solid Pseudo-papillary Neoplasm with Spleen and Vessel Preservation - Two Case Reports	Tsubasa Ito
	LESSONS LEARNT IN INTRODUCING MINIMALLY INVASIVE SURGERY INTO PAEDIATRIC ONCOLOGICAL SURGERY	James Balfour
	Outcomes of Surgical Management for Abdominal Lymphangioma in Pediatric Patients	Dung Ly

Poster Walk (Crystal Garden Foyer)

17:00 - 18:00	Poster Walk Day II. PW-1	CHAIR:
		Yohei Yamada
		Masaya Yamoto
NO.	TITLE	PRESENTER
	Simultaneous Laparoscopic and Thoracoscopic Biopsy via a Single Skin Incision Using a Port-Sharing Procedure in Infantile Neuroblastoma	Tokuro Baba

TUESDAY, MAY 27, 2025

	Tailored Low-Cost Homemade Retrieval Bag for Laparoscopic Splenectomy, A Valid Option in Resource Limited Settings	Sherif Shehata
	MANUAL COMPRESSION OF SCROTUM FOR IDENTIFICATION OF VARICOCOELE FEEDING VESSELS AND CONFIRMATION OF LIGATION	Wojciech Cymes
	Posterior Upper Pouch Flap with Anterior Plication in Long Gap EA Repair Surgery	Ergun Ergün
	Surgical Site Infections: How an Educational Intervention for Pediatric Surgeons Improves Surgical Wound Class Miscoding Rate for Acute Appendicitis	Lindsey Caines
	Long-term outcomes of thoracoscopic repair for esophageal atresia/tracheoesophageal fistula: a single-center study	Kyoichi Deie
	Laparoscopic surgery for perforated choledochal cyst with mixed reality-based holograms.	Tadashi Matsushima
	Risk factors for conversion to open approach during laparoscopic reduction of intussusception in children who failed fluoroscopy-guided pneumatic enema reduction	Ying Liu
	Correlation between Respiratory Requirements and Timing of Surgical Intervention in Neonates with Necrotizing Enterocolitis.	Georgi Mladenov
	Management and Outcomes of Intestinal Atresia: Influence of Clinical Factors on Postoperative Recovery	Ami Utsunomiya
	Ultrasound-Guided Transurethral Laser Puncture for Obstructive Ureterocele in Prenatally Diagnosed Bilateral Duplex Collecting System	Masafumi Tanaka
	Optimal Resection Level in Hirschsprung Disease: an overview of the available methods and new perspectives for the future	Cristiana Riboni
	A new technique for single-incision laparoscopic-assisted pyloromyotomy for hypertrophic pyloric stenosis	Keisuke Suzuki
17:00 - 18:00	Poster Walk Day II. PW-2	CHAIR:
		Takahisa Tainaka
		Shiho Yoshida
NO.	TITLE	PRESENTER
	Emergency appendectomy versus Interval appendectomy for abscess-forming appendicitis in children	Sachiko Mitsuhashi
	Percutaneous Endoscopic Gastrostomy in Children: A Tertiary Center Experience	Razan Bawazir
	Incidental diagnosis of fenestrated duodenal membrane in a 9-Year-Old following foreign body ingestion: Endoscopic management and resolution.	Daniel Hernández
	The Utility of MRCP versus Ultrasound in Directing Further Intervention for Pediatric Choledocholithiasis	Shanquell Dixon
	Single-incision laparoscopic repair for peptic ulcer perforation	Chin-Hung Wei
	Learning curve for laparoscopic reduction of intussusception in children who failed fluoroscopy-guided air enema.	Yinghua Liu
	Exploratory laparoscopy for a pediatric case of traumatic Spigelian hernia by bicycle handlebars with fecal impaction revealed delayed sigmoid colon stenosis	Takeshi Shirai
	Laparoscopic Cholecystectomy in Pediatric Pancreaticobiliary maljunction without biliary dilatation	Hiroaki Fukuzawa

TUESDAY, MAY 27, 2025

	Endoscopic-Assisted Resection of Septal reformation After Duhamel Procedure: Two Case Reports	Shohei Takami
	Laparoscopic Retrieval of Post Traumatic Rectal FB in an Adolescent	Sherif Shehata
	A Case Report of Laparoscopic Partial Small Bowel Resection for Intestinal Perforation in a Child	Yun Qiu
	Infantile Hypertrophic Pyloric Stenosis (IHPS) in Pediatrics: Comparison of Laparoscopic vs. Open Surgery	Tamer Megahed
	Laparoscopically assisted anorectoplasty (LAARP) after temporary umbilical loop colostomy for high anorectal malformations (ARM)	Keita Motoki
	A Retrospective Study of Pediatric Foreign Body Cases: Success and Challenges of Endoscopy Procedures in Rural Hospital Indonesia	Harsali Lampus
	The Insertion of Umbilical Dual Trocars via a Multi-Channel Device is useful for Performing Laparoscopy-Assisted Anorectoplasty in Children	Yoshinori Koga
17:00 - 18:00	Poster Walk Day II. PW-3	CHAIR:
		Yujiro Tanaka
		Linara Khabibullina
		Kyoko Mochizuki
NO.	TITLE	PRESENTER
	Congenital Giant Hepatic Cyst: Case report in Nicaragua	Maria Marengo
	The application of ERCP in children from the perspective of a pediatric surgeon	Ting Xu
	Two adult cases of congenital biliary dilatation treated using our pediatric surgical approach	Shohei Takayama
	COMPARISON OF OUTCOME OF OPEN AND LAPAROSCOPIC APPENDECTOMY IN PEDIATRIC POPULATION	Muhammad Sharif
	A Pediatric Case of Double Gallbladder with Gallstone	Razan Bawazir
	Spleen stiffness measurement under general anesthesia is not useful for predicting varices needing treatment in children with biliary atresia	Shinya Yokoyama
	NAVIGATING CHALLENGES: LAPAROSCOPIC MANAGEMENT OF A GIANT CHOLEDOCHAL CYST IN AN INFANT A CASE REPORT	Abe Ferrer
	Aberrant Right Hepatic Artery, A rare presentation in choledochal cyst	Muhammad Sharif
	Robotic Assisted Resection of a Large Upper Thoracic Esophageal Diverticulum	Jessica Sims
	Indocyanine Green (ICG)- Guidance In Laparoscopic Near-Total Pancreatectomy Improves Safety And Success In Diffuse Congenital Hyperinsulinism: A Case Report of 2 infants	Kok On Ho
	Clinical Analysis of Four Cases of Kasai Operation by the Da Vinci Robotic System	Menglei Zhu
	Robot-assisted surgery in pediatric patients with intestinal duplication	Zhigang Gao
	ROBOT-ASSISTED SURGERY IN PEDIATRIC PATIENTS: ANALYSIS OF FACTORS AFFECTING ROBOTIC PERFORMANCE INDICATORS TO IMPROVE OPERATIVE EFFICIENCY.	Maria Escolino
	From Laparoscopy to Robotics: A Surgeon's Journey Through the Learning Curve	Aneta Piotrowska-Gall

TUESDAY, MAY 27, 2025

17:00 - 18:00	Poster Walk Day II. PW-4	CHAIR:
		Anatole Kotlovsky
		Miho Watanabe
		Toshio Harumatsu
NO.	TITLE	PRESENTER
	Laparoscopic ligation of splenic vessels for the treatment of hypersplenism in children : a medium-term results	Jinshan Zhang
	Consideration on the Appropriateness of Performing Prophylactic Fundoplication	Takahiro Jimbo
	EXPERIENCE IN SURGICAL TREATMENT OF LIVER AND SPLEEN CYSTS IN CHILDREN.	Aleksey Gusev
	Vacuum-assisted excision for fibroadenomas in adolescents and young adults: a minimally invasive solution	Sheng-Yang Huang
	Laparoscopic treatment of abdominal cysts and retroperitoneal masses in neonates.	Temirlan Zhangaskanov
	BRONCHIAL STENOSIS IN CHILDREN	Aleksey Gusev
	Utility of laparoscopy as a diagnostic-therapeutic resource in pediatric abdominal trauma in tertiary hospitals in Mexico.	Roger Lopez Cruz
	Management of PFIC: Surgical Management	Pujana Kanneganti
	Does Non-Nutritive Sucking Improve Swallowing Recovery After Staged EA Repair and rTEF Operation?	Shuangshuang Li
	Partial splenectomy using a hybrid method of intervention radiology and laparoscopic surgery for splenic tumor in a child	Shohei Kishida
	OVERCOMING CHALLENGES: LAPAROSCOPIC MANAGEMENT OF INCARCERATED INGUINAL HERNIAS IN THE PEDIATRIC POPULATION	Justin Laree Tantoco
	Laparoscopic treatment of intracolonic migration of ventriculoperitoneal shunt with protruding from anus	Chia-Man Chou
	Testicular Ectopia in a Child's Anterior Abdominal Wall: A Case Report and Literature Review	Anan Hakeem
	TEP Rives-Stoppa: minimally invasive and effective surgical technique for recurrent epigastric hernia with rectus diastasis in patient with trisomy 21	Minori Ishii
17:00 - 18:00	Poster Walk Day II. PW-5	CHAIR:
		Kan Suzuki
		Iskandar Budianto
		Shinya Takazawa
NO.	TITLE	PRESENTER
	Modified thoracoscopic esophageal anastomosis of esophageal atresia with tracheoesophageal fistula	Bing Li
	Facilitation of Pediatric Endoscopic Surgery Using Electrostatic Precipitation for Surgical Smoke Removal	Yosuke Watanabe
	ICG Fluorescence-Guided Thoracoscopic Resection for Intralobar Pulmonary Sequestration	Takafumi Kondo
	Same Day Discharge Following Minimally Invasive Repair of Pectus Excavatum Following an ERAS Protocol	Cory Nonnemacher

TUESDAY, MAY 27, 2025

	Bronchoscopy applications in child burn.	Sabriye Dayi
	A Case of Thoracoscopic Posterior Tracheopexy Following Esophageal Atresia Repair	Satoshi Makita
	Hydrocoeles and Closed Rings on Laparoscopy: 2 cases of unexpected hernias	Atul Sabharwal
	Does 2-site cryoablation improve pain control after the Nuss procedure?	Cecilia Gigena Heitsman
	Multiple Recurrences of Tracheoesophageal Fistula After Esophageal Atresia Surgery	Kaiyun Hua
	Using Polyglycolic Acid Sheets to Prevent Pneumothorax in Marfan Syndrome Patients	Motoki Ebihara
	Trans-axillary incision versus traditional video-assisted thoracoscopic surgery for pediatric patient with primary spontaneous pneumothorax	Yi-Wen Tsai
	To remove or not to remove? Dilemma in management of retained intrathoracic bullet in a pediatric patient in a government hospital in the Philippines: A case report	Joyce Anne Lopez
	Thoracoscopic repair for esophageal atresia: our institutional experience and comparison with open repair in typical cases	Jun Fujishiro
	Applying Expertise Gained from Experience of Pediatric Robotic-Assisted Surgery at a Single Institute for Improving Robotic-Assisted Surgery in Young Children	Soichi Shibuya
17:00 - 18:00	Poster Walk Day II. PW-6	CHAIR:
		Hardian Gunardi
		Yuichiro Miyake
NO.	TITLE	PRESENTER
	Thoracotomy Conducted in A Pediatric Foreign Body Retrieval: A Case Report of A Neglected Needle Ingestion	Harsali Lampus
	A case of late-presenting congenital diaphragmatic hernia associated with wandering spleen treated with thoraco- and laparoscopic surgery	Reina Hoshi
	Balloon dilation for localizing congenital esophageal stenosis associated with esophageal atresia.	Yuichiro Miyake
	Surgical treatment of Echinococcosis and serology in Mongolia	Unurjargal Jargalzam
	Thoracoscopic Right lower Lobectomy for hybrid lesion in an infant	Apurva Gupta
	STAGED THORACOSCOPIC REPAIR OF ESOPHAGEAL ATRESIA WITH DISTAL TRACHEOESOPHAGEAL FISTULA IN A SICK NEWBORN - A CASE REPORT AND LITERATURE REVIEW	Karl Vincent Tesoro
	Surgical treatment of severe tracheal stenosis caused by tracheal nerve sheath tumor in a child: a case report	pengju Li
	Radiographic findings and outcomes of thoracoscopic repair for esophageal atresia with tracheoesophageal fistula (TEF).	Shigetake Zenitani
	Comparison of Outcomes Between Nuss and Modified Ravitch Procedures in Patients With Pectus Excavatum and Previous Intrathoracic Operations	Naoko Uga
	Minimally invasive incision in the right axilla for the treatment of bifid ribs in children	pengju Li
	Thoracoscopic repair of congenital diaphragmatic hernia: A simple surgical technique for pericostal patch fixation	Hei Yi Wong

TUESDAY, MAY 27, 2025

	Thoracoscopic management of Primary repair of pure esophageal atresia and its complications	Vishesh Jain
	ICG-Guided Thoracoscopic Left Lower Lobectomy for Congenital Pulmonary Airway Malformation with Incomplete Major Fissure: A Pediatric Case Report	Eiichiro Watanabe
	Thoracoscopic Resection of Pediatric Congenital Lung Malformations	Nadia Anabuki
	Safety and efficacy of laparoscopic percutaneous extraperitoneal closure for treating abdominoscrotal hydrocele in children	Takeshi Shono

WEDNESDAY, MAY 28, 2025**Room 1 (Emerald)**

7:00 - 7:45	Quick Shot I Thoracic	CHAIR:
		Gaston Elmo
		Wataru Mukai
		Cecilia Gigena Heitsman
NO.	TITLE	PRESENTER
	Thoroscopic Excision of Esophageal Lung	Anjan Dhua
	Pediatric cardiac sympathectomy for adrenergic triggered arrhythmias: a single center case-series	Maya Paran
	The "NIR-thoroscopic Simple clip method" for treatment of congenital H-type tracheoesophageal fistula in the neonate	Yao Liu
	Effects of Gabapentin following Minimally Invasive Repair of Pectus Excavatum with Intercostal Nerve Cryoablation (MIRPE-INC)	Kathleen Heller
	A Cable Anchor Technique for Enhancing Precision during Thoroscopic Esophageal Anastomosi	Michiaki Ikegami
	Bronchoscopic sponge closure for large broncho-pleural fistula following lung lobectomy or lung segmentectomy	Erdenebilguun Gantumur
	Thoroscopic left cardiac sympathetic denervation for catecholaminergic polymorphic ventricular tachycardia	Satoshi Umeda
	Predictive modeling for early detection of refractory esophageal stricture following esophageal atresia surgery: insight from a machine learning study	Chuanping Xie
	Surgical treatment of primary pediatric lung tumors in a single center	Dengke Luo
	Considering the indications for video-assisted thoroscopic surgery for pediatric empyema	Shoichi Tsuzaka
	Clinical application of thoroscopic anatomical lesion resection for the treatment of intersobar congenital pulmonary lung malformation	Chang Xu
	Eight Years of Expertise with the Sandwich Technique for Asymmetric Pectus Carinatum and Excavatum-Carinatum Complex	Cecilia Gigena Heitsman
	Robot-assisted thoroscopic surgery for ligation patent ductus arteriosus in children	XiWang Liu
	First pediatric thoracic surgery using the Senhance® robotic surgical system: A case report	Daiki Kato
	A New Era in Medical Information: ChatGPT outperforms medical information provided by online information sheets about congenital malformations	Maya Paran
8:00 - 8:45	Session VI Coolest Tricks (Award +)	CHAIR:
		Hanna Alemayehu
		Yury Kozlov
		Maria Escolino
NO.	TITLE	PRESENTER
	Laparoscopic Esophagectomy with Segmental Resection and Traction Sutures for Congenital Esophageal Stenosis	Juma Obayashi
	ROBOT-ASSISTED APPENDIX INTERPOSITION FOR EXTENDED URETERAL STRICTURE	Yury Kozlov

WEDNESDAY, MAY 28, 2025

	Effective method of peritoneal closure with Lapaherclosure in laparoscopic single-site surgery for urachal remnant	Natsumi Tanaka
	Advancing Congenital Diaphragmatic Hernia Repair. Intraoperative Video of a Tension-Free Thoracoscopic Patch Technique.	Takamasa Suzuki
	Thoracoscopic-Assisted Central Venous Catheterization via Azygos and Intercostal Vein in a Pediatric Patient with Major Access Route Occlusions	Masahiro Zenitani
	Our New Approach for patients with palpable cryptorchidism by Laparoscopy-Assisted Trans-scrotal Orchidopexy	Yuta Yazaki
	Aortopexy using an Intraosseous needle for suture placement – a novel approach	Yannick Schmidt
	Reverse needle driving via umbilical trocar: An effective technique for treating recto-bulbar fistula in laparoscopically assisted anorectoplasty	Toshio Harumatsu
	Laparoscopic Excision of a symptomatic Cystic Duct Remnant using Near-Infrared Indocyanine Green (ICG) Fluorescent Cholangiography.	Steven Rothenberg
8:45 - 9:50	Panel I Biliary Atresia What's new	CHAIR:
		Go Miyano
		Eduardo Perez
NO.	TITLE	PANELIST
		Ken Wong
		Tran Son
		Joel Cazares
		Meltem Kologlu
		Long Li
10:20 - 11:25	Session VIII Colorectal	CHAIR:
		Carolina Milan
		Matthew Clifton
		Mikihiko Inoue
NO.	TITLE	PRESENTER
	Utility of 1% Lugol's Iodine Staining for Visualizing the Herrmann Line in Laparoscopic Swenson Procedures for Hirschsprung Disease	Kazuki Ota
	Early experience with real time MRI-guided laparoscopic anorectal malformation repair at a community-based hospital setting	Matthew Ralls
	Hybrid laparoscopic approach with anterior sagittal anorectoplasty for cloacal malformations repair in children. Single center experience.	Linara Khabibullina
	Is LAARP a Maximum Invasive Surgery ? - Comparison with PSARP in terms of urinary voiding function at single institution experiences	Shun Onishi
	Laparoscopically assisted transanal "Soave to Swenson" approach of resecting rectal muscle sheath and pull-through for Hirschsprung disease	Weibing Tang
	Laparoscopic total proctocolectomy with ileal pouch anal anastomosis in children with familial adenomatous polyposis, ulcerative colitis and colorectal cancer	Linara Khabibullina
	Follow-up of defecation and urination function, growth and development in children with Currarino Syndrome	Xinyue Tan

WEDNESDAY, MAY 28, 2025

	OUR EXPERIENCE IN CROHN'S DISEASE TREATING USING LAPAROSCOPY	Aleksey Gusev
	Single Incision Laparoscopic Surgery for Malone Antegrade Continent Enema: Optimizing Outcomes in Pediatric Bowel Management	Ismael Elhalaby
	Minimally Invasive Management of Pediatric Rectal Prolapse: Laparoscopic Sigmoidectomy with Robotic-Assisted Rectopexy	Alison Lehane
	The current practice of laparoscopically assisted anorectoplasty for male patients – an IPEG survey	Tetsuya Ishimaru
11:25 - 12:20	Session X Thoracic II	CHAIR:
		Steve Rothenberg
		Ken Wong
		Oliver Muensterer
NO.	TITLE	PRESENTER
	Thoracoscopic ligation of Large Patent Ductus Arteriosus in children: a report of 26 cases	Yu Ma
	Tips in Thoracoscopic Sympathectomy with Nerve of Kuntz	Sherif Shehata
	Application of identifying the intersegmental plane during thoracoscopic anatomical segmentectomy in infants	Yao Liu
	The intraoperative localization in recurrent tracheoesophageal fistula after esophageal atresia repair: a comparative study	Kaiyun Hua
	Preliminary Exploration and Optimization of Bougie Dilation Strategy for Long-Gap Esophageal Atresia (LGEA)	Shuangshuang Li
	Clinical Outcomes in TEF Patients Treated by Thoracoscopic Repair: A Multicenter Study from the East Asia Pediatric Surgery Research Consortium	Yudai Tsuruno
	A Collaborative Hybrid Operating Room Approach to Pulmonary Nodule Localization and Resection	Emily Vore
	Impact of Esophageal Gap Length on Postoperative Complications in Type C Tracheoesophageal Fistula/Esophageal Atresia	Jiahui Liu
	Clinical Presentation and Management of Extralobar Sequestration with Pulmonary Connections	Dengke Luo
12:30 - 13:20	Industry Lunch (Sponsored Asensus)	CHAIR:
		Mark Wulkan
NO.	TITLE	PRESENTER
		Hiroo Uchida
		Steve Rothenberg
13:30 - 14:00	Presidential Address	CHAIR:
		Atsuyuki Yamataka
		PRESENTER
		Satoshi Ieiri
14:00 - 14:30	JPS Lecture	CHAIR:
		Satoshi Ieiri
		PRESENTER
		Ken Wong

WEDNESDAY, MAY 28, 2025

14:30 - 15:20	Session XII Urology II	CHAIR:
		Sabine Zundel
		Sherif Shehata
		Manuel Lopez
NO.	TITLE	PRESENTER
	Comparison of Robotic, Single-Trocar, and Three-Trocar Laparoscopic Pyeloplasty in Children Over One Year: Outcomes and Cost-Effectiveness	Quang Nguyen
	Development and Validation of Prognostic Model for High-Pressure Balloon Dilatation Effectiveness in Primary Obstructive Megaureter Treatment in Children.	Aleksey Gusev
	Laparoscopic ileocystoplasty for neurogenic bladder in a pediatric patient : Demonstration of the surgical technique	Kirtkumar Rathod
	FEATURES OF THE REPRODUCTIVE SYSTEM IN GIRLS WITH CROHN'S DISEASE AFTER SURGICAL INTERVENTIONS	Aleksey Gusev
	Outcomes of Ureteric Reimplantation in children(minimally invasive vs the open approach): Insights from a Single Center Retrospective Analysis	Manish Pathak
	Efficacy of Robotic-assisted Reconstructive Surgery for Long-segment Ureteral Stricture: A Single Institution Experience in 23 Patients	Hongshuai Jia
	PROGNOSTIC FACTORS OF OUTCOMES OF VESICoureTERAL REFLUX ENDOSCOPIC CORRECTION IN CHILDREN.	Aleksey Gusev
	Key techniques for stable transvesicoscopic ureteral reimplantation in all age groups.	Makoto Suzuki
15:50 - 16:50	Panel II Robot & Innovation	CHAIR:
		Ciro Esposito
		Bethany Slater
NO.	TITLE	PRESENTER
		Mahmoud Elfiky
		Yury Kozlov
		Jason Fraser
		James Wall

Room 2 (Crystal Garden A)

7:00 - 7:45	Quick Shot II Robot & ICG	CHAIR:
		Isabela Draghijs
		Tobias Jhala
		Carlos Colunga
NO.	TITLE	PRESENTER
	Fluorescence navigation assisted thoracoscopic anatomical lesion resection of the left lower lobe	Miao Yuan
	Robotic-assisted procedures in pediatric patients: experience of 88cases	Hiroyuki Koga

WEDNESDAY, MAY 28, 2025

	Perioperative Outcomes Using A Single-Fire Stapler for Robotic Vertical Sleeve Gastrectomy in Adolescents: A Single Center Experience	Wendy Jo Svetanoff
	Comparison of Robot-Assisted Laparoscopic Extravesical Ureteral Reimplantation for Primary Vesicoureteral Reflux in Infants Under One Year of Age and Older Children	Xiaowei Zhang
	Robotic-assisted Transthoracic Congenital Diaphragmatic Hernia Repair	Omar Nunez
	Clinical Outcomes of Robot-Assisted Laparoscopic Pyeloplasty for Ureteropelvic Junction Obstruction in Infants Under Three Months of Age	Xiaowei Zhang
	Indocynine Green (ICG) and Fluorescence Imaging in Pediatric Colorectal Surgery	James Moon
	Prediction of two-year native liver survival of biliary atresia after Kasai guided by the early postoperative biochemical results and machine learning models	Dingding Wang
	Introduction of cadaver surgical training for pediatric surgeons with robotic-assisted surgery.	Tomonori Tsuchiya
	Robotic Heller's Myotomy with Dor Fundoplication for Achalasia Cardia in Children: Surgical Technique and Early Results	Anju Verma
	Robotic Assisted Pancreatic Surgery- its feasibility and safety in children	Bibekanand Jindal
	Near-infrared and cystoscopy-guided laparoscopic assisted anorectoplasty for high-precision urethral navigation	Toshihiko Watanabe
	Efficacy of Indocyanine Green-Guided Thoracoscopic Multiple Segmentectomy for Congenital Pulmonary Airway Malformation	Shinya Takazawa
	Robotic Auto-Augmentation for Managing High-Pressure Neurogenic Bladders in Children with Renal Decompensation	Arvind Sinha
	A pediatric case of focal nodular hyperplasia difficult to differentiate from metastatic liver tumor: the utility of indocyanine green fluorescence imaging	Katsuhiko Ogawa
8:00 - 8:40	Session VII Hernia	CHAIR:
		Shin Miyata
		Tran Son
		Stefan Sholz
NO.	TITLE	PRESENTER
	A RARE TYPE OF INGUINAL HERNIA: NEW POSSIBILITIES FOR THE PATHOGENESIS OF INGUINAL HERNIA IN CHILDREN	Nana Nakazawa-Tanaka
	Comparison of laparoscopic percutaneous extraperitoneal closure (LPEC) and open herniotomy (OH) in pediatric inguinal hernia: A retrospective cohort study on operative time and complications	Sirima Liuktitithara
	Single-incision laparoscopic percutaneous extraperitoneal closure for ovarian sliding inguinal hernias	Yasuhiro Kondo
	Contemporary laparoscopic assisted ventriculoperitoneal shunt: Is it necessary in re-operative abdominal surgical patient?	Jarruphong Noitumaye
	Evaluation of risk factors for postoperative complication after Laparoscopic Percutaneous Extraperitoneal Closure for pediatric patients with inguinal hernia: single institution experience with over 2600 cases	Toshiaki Takahashi

WEDNESDAY, MAY 28, 2025

	Targeted Hydrodissection Technique for Enhancing the Safety of Laparoscopic Extracorporeal Ligation for Inguinal Hernia	Soichi Shibuya
	Surgeon Technique Preference Effects on Inguinal Hernia Recurrence Rates	Kathleen Heller
	LAPAROSCOPIC COMPLETELY EXTRAPERITONEAL REPAIR VERSUS OPEN HERNIOTOMY OF INGUINAL HERNIA IN CHILDREN: A PROSPECTIVE COMPARATIVE STUDY	Thach Pham
10:45 - 11:20	Session IX Gastrointestinal II	CHAIR:
		Chiyo Shirota
		Anthony Tsai
		Pierr Yves
NO.	TITLE	PRESENTER
	Predictors of surgical difficulty in interval laparoscopic appendectomy	Genta Ozeki
	Laparoscopic Ladd procedure for neonatal patients with malrotation is safe and feasible	Hiroki Ishii
	A Retrospective Review of a Post-Operative Pyloromyotomy Scheduled Feeding Protocol	John Woodward
	Appendectomy for Chronic Right Lower Quadrant Pain in Pediatric Patients	Jason Robertson
	Risk factors of bowel perforation in neonates with Hirschsprung Disease	Zhaozhou Liu
	Comparison of robotic and laparoscopic duodenal diamond-shaped anastomosis for annular pancreas	Zebing Zheng
11:20 - 12:10	Session XI Urology I	CHAIR:
		Hannah Luz
		Gloria Pelizzo
		Takashi Doi
NO.	TITLE	PRESENTER
	Short-term clinical outcome of the Shehata technique of laparoscopic traction-lengthening for intraabdominal testes in a Japanese single center	Hiroki Nakamura
	Outcomes of Three Minimally Invasive Surgical Approaches for the Treatment of Ureterocele in Pediatric Patients with Ureteral Duplication	Quang Nguyen
	FROM LAPAROSCOPIC (LEVUR) TO ROBOT-ASSISTED EXTRAVESICAL URETERAL REIMPLANTATION (REVUR): THE EVOLUTION OF A NEW STANDARD OF TREATMENT FOR PEDIATRIC PATIENTS WITH VESICoureteral REFLUX.	Maria Escolino
	Does size matter? Comparative analysis of laparoscopic dismembered pyeloplasty in children above and below 15 kg.	Alejandra Rios Rubio
	Laparoscopic urogenital separation and recto-vaginal pull-through in the management of cloaca with a long common channel	Tran Son
	Feasibility and effectiveness of transumbilical single site laparoscopic pyeloplasty for UPJO in infants	Wei Liu

WEDNESDAY, MAY 28, 2025

	A Multi-institutional Experience with Laparoscopic and Robotic-assisted Appendiceal Ureteroplasty in Children: Lessons Learned from Extended Follow-up	Hualin Cao
	Minimally invasive vesicoscopic intervention as primary treatment of subvesical obstructing ectopic ureterocele	Christian Kruppa
14:30 - 15:20	Session XIII Hepatobiliary	CHAIR:
		Patrick Chung
		Mei Diao
		Nana Nakazawa-Tanaka
NO.	TITLE	PRESENTER
	Indocyanine green fluorescence imaging during laparoscopic portoenterostomy for biliary atresia	Hiroki Goto
	Laparoscopy vs laparotomy approach for biliary atresia in long-term native liver survival: a multi-center study	Yoichi Nakagawa
	Laparoscopic liver resection for hepatic tumor in children: a report of 56 cases	Ya Gao
	LONG-TERM OUTCOMES OF LAPAROSCOPIC PORTOENTEROSTOMY FOR BILIARY ATRESIA	Joel Cazares
	ICG-GUIDED FLUORESCENT CHOLANGIOGRAPHY IS A BETTER OPTION FOR LAPAROSCOPIC CHOLECYSTECTOMY IN PEDIATRIC PATIENTS COMPARED TO CONVENTIONAL LAPAROSCOPIC PROCEDURE.	Ciro Esposito
	FACTORS AFFECTING THE SUCCESS OF LAPAROSCOPIC REDO SURGERY IN CHOLEDOCHAL CYST CHILDREN WITH POSTOPERATIVE BILIARY OBSTRUCTIONS AND LIVER FIBROSIS	Mei Diao
	Fluorescence-Guided Technologies for Improved Safety in Pediatric Choledochal Cyst Surgery.	Jorge Colin Garnica

Room 3 (Crystal Garden B)

7:00 - 7:45	Quick Shot III Oncology & Urology ARDEN	CHAIR:
		Takeo Yonekura
		Takaharu Oue
		Shao-tao Tang
NO.	TITLE	PRESENTER
	Complete laparoscopic resection of hepatoblastoma originating in the medial and anterior segments in a toddler boy	Hiroki Nakamura
	Minimally invasive surgery for the resection of neuroblastomas with image-defined risk factors	Jiangbin Liu
	SIMULTANEOUS BILATERAL LAPAROSCOPIC HEMINEPHRECTOMY IN DUPLICATED KIDNEYS. ARGUMENTS FOR THE TRANSPERITONEAL APPROACH.	Andrzej Golebiewski
	LAPAROSCOPIC DISMEMBERED PYELOPLASTY FOR URETEROPELVIC JUNCTION OBSTRUCTION IN CHILDREN. A SINGLE-CENTER AND SINGLE-SURGEON EXPERIENCE.	Thuy Nguyen
	Long-term outcomes of laparoscopic percutaneous extraperitoneal closure in infants with inguinal hernia	Hiromu Miyake

WEDNESDAY, MAY 28, 2025

	Streamlining the Shanfield technique: Simplified single "U- Stitch" anastomosis for Laparoscopic Mitrofanoff	Alejandra Rios Rubio
	Laparoscopic Duodenal Lowering for Pediatric Superior Mesenteric Artery Syndrome	Seth Saylors
	Robotic-Assisted Laparoscopic Pyeloplasty for Pediatric Atypical UPJO: The Renal Pelvic Valve Technique	Hongshuai Jia
	Outcome of Laparoscopic Reimplantation for Ureterobladder Junction Malformation in Children: Lich-Gregoir versus Cohen Technique	Andreea Moga
	LAPAROSCOPIC REDO VAGINAL RECONSTRUCTION IN A COMPLEX CASE OF CLOACAL ANOMALY(video)	Carlo F Forlini
	Robotic-assisted Pedicled Colonic Flap Pyeloplasty for the Treatment of Complicated Ureteropelvic Junction Obstruction: Technique and Outcomes	Yangyang Wu
	Laparoscopic Trans Umbilical Ovarian Resection for Fertility Preservation in Pediatric Malignancies	Takaaki Sakai
	Vesicoscopic Leadbetter-Politano ureteral reimplantation in primary obstructive megaureter in children compared to open surgery	Alexandra Wilke

Poster Walk (Crystal Garden Foyer)

17:00 - 18:00	Poster Walk Day III. PW-1	CHAIR:
		Atsuhisa Fukuda
NO.	TITLE	PRESENTER
	Non-Visualized Appendix on Ultrasound: A Retrospective Analysis of Follow Up Cross Sectional Imaging and Clinical Pediatric Appendicitis Scoring	Melanie Tacher Otero
	Treatment of corrosive esophageal stenosis with incomplete short - segment atresia in children by magnetic compression anastomosis in the digestive tract lumen	Hui Yu
	Pitfall in Trans-umbilical Laparoscopy-assisted Meckel's Diverticulectomy: A Case Report	Yukihiro Toriigahara
	Preventing Disastrous Urologic Injury in Malformation Anorectal : New Approach Technique Cystoscopy-Assisted Anorectoplasty	Arif Oktavian
	LAPAROSCOPIC INTERVAL APPENDECTOMY AS SAFE AND EFFECTIVE TREATMENT OF ACUTE APPENDICITIS AFTER FAILURE OF CONSERVATIVE APPROACH.	Ciro Esposito
	STRETTA for Pediatric GER: A Novel Application in a 12-Year-Old with Persistent Symptoms	Panagiotis Petropoulos
	Surgical Technique and Outcomes of Laparoscopic Inguinal Hernia Repair for pediatric patients in Our Department: Transection of the Hernia Sac and Closure of the Peritoneum	Kai Konishi
	Single-Port Laparoscopic Surgery in Infant And Small Children: Review Case Series	Ruankha Bilommi
	Laparoscopic Collis-Nissen fundoplication for recurrent gastroesophageal reflux in patients with esophageal atresia	Masahito Sato

WEDNESDAY, MAY 28, 2025

	Incidence and Characteristics of Intussusception Associated with Transanastomotic Feeding Tube in Hepaticojejunostomy	Shota Kimura
	Video-assisted (Laparoscopic or thoracoscopic) repair of congenital hiatal hernia in infants: a single center review.	Kengo Nakahata
	Diagnosis and treatment experience of minimally invasive surgery for Hirschsprung's disease in older children	Yuanmei Liu
	Neonatal laparoscopic hiatal hernia repair with complicated perioperative conditions – a case report	Toru Shimizu
	Utility of a 3-point Safety Algorithm To Reduce Potential Intra-Operative Complications in Laparoscopic-Assisted Percutaneous Endoscopic Gastrostomy (LAPEG) in Children	Kok On Ho
	Laparoscopic portojejunostomy as a salvage surgery for biliary tract injury during cholecystectomy	Kosuke Endo
	LAPAROENDOSCOPIC CYSTOLITHOTOMY WITH DIRECT VISUAL LITHOTRIPSY. COMBINED TREATMENT OF LARGE BLADDER STONES	Andrzej Golebiewski
	The comparison of outcomes after laparoscopic and open pyeloplasty for pediatric patients; single institutional experience	Tomo Kakiyara
	LAPAROSCOPIC GASTRODUODENAL ANASTOMOSIS (BILLROTH I) AN ALTERNATIVE IN THE MANAGEMENT OF TYPE II PYLORIC ATRESIA IN CARMİ SYNDROME. A CASE REPORT.	Jorge Colín-Garnica
17:00 - 18:00	Poster Walk Day III. PW-2	CHAIR:
		Maho Inoue
		Hiromu Miyake
NO.	TITLE	PRESENTER
	Laparoscopic Technique in Emergency Management of Incarcerated Bowel Within Inguinal Hernia	Abdullah AL Musallam
	A case of hepatic duct dilatation that required differentiation from congenital biliary dilatation while awaiting surgery for a congenital hiatal hernia.	Ryuta Masuya
	Single Incision Cholecystectomy and Splenectomy	Nam Nguyen
	Treatment Options for Adolescent Obesity: Innovative Approaches and Evidence-Based Solutions	Tamer Megahed
	Meckel's Diverticulum Perforated by Swallowed Chicken Bone in Infant: A Very Rare Finding.	Omar Ajaj
	Complete laparoscopic hepatic vein repair on the hepatic vein injury with hemorrhage undergoing laparoscopic hepatectomy in children	Zhibao Lyu
	Comparison between single-incision and conventional laparoscopy treatment of patent congenital choledochal cyst in children: a cohort study	Zhu Jin
	Optimizing Intraoperative Management of Pediatric Choledocholithiasis Using an IOC-Based Classification System	Alison Lehane
	Robotic-assisted vs. laparoscopic cholecystectomy : A matching study in pediatric cases; single center study.	Suhyeon Ha
	Safety and validity of laparoscopic liver biopsy in children	Takayuki Masuko
	Laparoscopic partial splenectomy using the hybrid devascularization technique for a splenic epithelial cyst: A case report	Yoshimasa Uematsu
	From Diagnosis to Solution: Tackling Pediatric Biliary Pathology in Chile, Results from a Multicenter Study.	Alberto Torres

WEDNESDAY, MAY 28, 2025

	Subglottic stenosis in children: Our experience for management by holmium laser	Naser Almekleh
	Fluorescence-guided Laparoscopic Anatomical Right Hemihepatectomy for Giant Hepatoblastoma in the Right Lobe of the Liver in Infants	Xiaogeng Deng
	Laparoscopic cyst excision with reverse Roux-en-Y hepatoenterostomy and ladd's procedure for choledochal cyst with congenital intestinal malrotation in children.	Jiangbin Liu
	Endoscopic surgery for upper urinary tract disorders.	Ryota Koyama
	Laparoscopic Repair for a Malpositioned Peritoneal Dialysis Catheter Using the Peritoneal Wall Anchor Technique (PWAT): A Case Report	Hiroki Yosihda
	Postoperative Cerebral Infarction After Laparoscopic Ovarian Cystectomy in a Neonate: A Case Report	Saki Sakamoto
17:00 - 18:00	Poster Walk Day III. PW-3	CHAIR:
		Satoshi Umeda
		Hiroyuki Koga Takayuki Masuko
NO.	TITLE	PRESENTER
	Efficacy of fluorescence imaging with indocyanine green inhalation in performing thoracoscopic anatomical lesion resection: a retrospective cohort study	Taozhen He
	Explainable AI in Risk Assessment for Endoscopic Procedures in Pediatric Urology: Enhancing Clinical Understanding and Communication	Aneta Piotrowska-Gall
	Artificial intelligence (AI) and computer vision (CV): Are we developing such innovations already for pediatric endosurgery?	Holger Till
	First-year experience with pediatric robotic surgery: a single-center case series	Sheng-Yang Huang
	Teaching artificial intelligence (AI) and machine learning (ML) for pediatric surgeons: Results of a pre- and post- workshop survey	Holger Till
	Analysis of Operative Time and Trainee Involvement During Pediatric Robotic Cholecystectomy	Georgi Mladenov
	Evaluation of the Dexter Robotic Surgical System for Procedures in Small Cavities	Anna Saltner
	First case report of robotic-assisted surgery for choledochal cyst using the da Vinci SP Surgical System	Mikihiro Inoue
	AN ATYPICAL OVARIAN MASS: HOW THE SITUATION CAN DRAMATICALLY CHANGE IN A BLINK OF AN EYE	Claudia Di Mento
	Four-Trocar Robotic Surgery in Pediatrics: Technical Adjustments and Preliminary Outcomes	Alessandro Raffaele
	Robotic approach for an ectopic right kidney – a rare differential diagnosis for mesenteric mass	Andreea Moga
	Revolutionising Neonatal Minimally Invasive Surgery Training: Development of a High-Fidelity 3D-Printed Simulator with Integrated E-Learning Tools	
	Developing Fluorescence Guided Paediatric Surgery: A Single Quaternary Centre's Journey	Atul Sabharwal
	Retroperitoneal laparoscopic pyeloplasty in PUJO Using Nephrostent: single centre experience	Shimaa Ibrahi
	Variation of Crossed Testicular Ectopia in Children	Omar Ajaj

WEDNESDAY, MAY 28, 2025

	AN UNEXPECTED SEVERE BLOOD DRIPPING FROM ABDOMINAL WALL AFTER ROBOT-ASSISTED LAPAROSCOPIC VARICOCELECTOMY	Maria Escolino
	Prenatal Assessment of Esophageal Atresia and Tracheoesophageal Fistula for Successful Thoracoscopic Repair	Soichi Shibuya
17:00 - 18:00	Poster Walk Day III. PW-4	CHAIR:
		Momoko Ara
		Hiroaki Fukuzawa
NO.	TITLE	PRESENTER
	Minimally Invasive Complete Resection of PRETEXT II Hepatoblastoma: Technical Details of Laparoscopic Right Hepatectomy in a 3-year-old	Yasuhiro Kuroda
	Pediatric unicentric Castleman's disease successfully treated with laparoscopic surgery, a case report	Takashi Kobayashi
	Retroperitoneoscopic Tumor Resection in Children: A Case Review	Takahisa Tainaka
	Laparoscope-assisted surgery for presacral neuroblastoma combined with rectobulbar urethral fistula, a case report	Takashi Kobayashi
	Surgical Management of a Patient with a Giant Ovarian Mass Complicated by Pulmonary Embolism: A Case Report	Ergun Ergun
	Thoracoscopic Thymectomy for Juvenile Myasthenia Gravis: A Single-Center Experience	Sugandha Agarwal
	OUTCOMES OF THORACOSCOPIC VS OPEN CONGENITAL DIAPHRAGMATIC HERNIA REPAIR: AN AMBISPECTIVE STUDY	Bikash Naredi
	Therapeutic Efficacy Analysis of Retrograde Dilation for Severe Esophageal Stenosis in Children	Yichao Gu
	Single-Center Experience in the Management of Congenital Esophageal Stenosis: A Retrospective Case Review	Shuangshuang Li
	Combined Endoscopic Treatment for Recurrent Tracheoesophageal Fistula Closure in Esophageal Atresia: A New Approach and Long-Term Results.	Miguel Cardenas Elias
	T3 Endoscopic Thoracic Ganglionectomy Using Cutting Mode Cautery for Palmar Hyperhidrosis	Sunghoon Kim
	Minimally Invasive Treatment Strategy for Congenital Esophageal Atresia with Duodenal Atresia	Yichao Gu
	A Comparative Study of the Clinical Characteristics of Esophageal-Pulmonary Fistula in Children	Kaiyun Hua
	Postnatal management of prenatally diagnosed congenital diaphragmatic hernia.	Shiho Yoshida
	Comprehensive Evaluation of Pectus Excavatum Using Multiple Indexes: Insights into Treatment Outcomes and Anatomical Variations	Akio Kawami
	Unanticipated Intraoperative Diagnosis of Congenital Mid-Ureteric Stenosis - Surgical Impact	Pujana Kanneganti
	Laparoscoipc unroofing of a simple renal cyst in a child: A case report	Narito Takada

WEDNESDAY, MAY 28, 2025

	Single-staged laparoscopic orchiopexy for impalpable and peeping undescended testis	Chin-Hung Wei
17:00 - 18:00	Poster Walk Day III. PW-5	CHAIR:
		Makoto Suzuki
		Ulgen Celtik
		Toshiko Takezoe
NO.	TITLE	PRESENTER
	A Minimally Invasive Staged Approach with Repeat Thoracoscopy for Multilobar CPAM	Jessica Sims
	Prophylactic surgery for Congenital Lung Malformations in asymptomatic infants: a retrospective cohort study	Ugo Maria Pierucci
	Thoracoscopic Mesh Repair for Congenital Diaphragmatic Hernia: Is it a safe option?	Iftikhar Jan
	Photodynamic therapy in the treatment of esophageal mucosal metaplasia in children	Sofia Sosnova
	Thoracoscopic Repair of Congenital Diaphragmatic Hernia in Neonates: Surgical Indications and Innovations at our Center	Toshiko Takezoe
	LAPAROSCOPIC TRANSHIATAL MANAGEMENT OF A CASE OF ESOPHAGEAL LUNG	Oliver Muensterer
	Experience of surgical repair of incomplete sternal clefts	Sofia Sosnova
	Use of modified airway model in Bronchoscopy training for Tracheoesophageal Fistula	Mahmoud Elfiky
	Bilateral Bronchogenic Cysts in a Pediatric Patient: Case report of a Single-Sided Thoracoscopic Resection	Astrid Lackinger
	Intraoperative PICC use and its influencing factors in Chinese surgical patients: a cross-sectional study	Yang Yang
	Advantages of Uniportal VATS in Pediatric Surgery	Satoshi Obata
	THORACOSCOPIC TREATMENT OF BULLOUS EMPHYSEMA IN CHILDREN	Aleksey Gusev
	A rare diagnosis mimicking foreign body aspiration: Plastic bronchitis	Sabriye Dayı
	Total Laparoscopic Management Of Ectopic Duplex Ureters using Conventional and Robot Assisted Laparoscopy	Geeta Kekre
	Triamcinolone Tragedy: The Perilous Path of Healing Turning Harmful in Esophageal Repair	Shuangshuang Li
	Staring Down the Barrel: Completion of Single Incision Laparoscopic Appendectomy Without a Working Camera	Charles Snyder
	Invasive methods in treatment of necrotizing pneumonia in children	Arthur Sar
17:00 - 18:00	Poster Walk Day III. PW-6	CHAIR:
		Takeshi Shono
		Kaori Morita
		Masahiro Zenitani
NO.	TITLE	PRESENTER
	Laparoscopic assisted surgery for management of cloacal malformation – initial experiences	Cm Chou

WEDNESDAY, MAY 28, 2025

	One-Stage Robot-Assisted Bladder Neck Reconstruction and Open Epispadias Repair: A Novel Surgical Approach for Congenital Epispadias	Xiaoyu Yi
	Do we still need experience in laparoscopic PIRS repair after decades?	Ergun Ergün
	Staged laparoscopic traction orchidopexy for intraabdominal testes: The Shehata technique	Masatoshi Nakamura
	Comparing Conventional Laparoscopic versus Robotic pyeloplasty in children with Pelvi-ureteric junction obstruction: Tertiary center experience	Tarun Kumar
	Robotic-assisted surgery for the treatment of complications following cloaca malformation surgery: a case report	Cm Chou
	Intraabdominal orchiepididymitis after first-stage Shehata technique orchiopexy, a case report and systematic review on Shehata technique surgical complications	Javier Jimenez-Gomez
	Evaluation of tolerance towards ureteral double-J-stents in children: an unmet need	Cristiana Riboni
	LAPAROSCOPIC TRANSPERITONEAL APPROACH URETEROURETEROSTOMY FOR URETERAL DUPLICATION IN CHILDREN.	Thuy Nguyen
	Results of Morphology-based Identification for Contralateral Patent Vaginalis Processus during Laparoscopic Percutaneous Extraperitoneal Closure in an University Hospital	Fu Huan Huang
	Endoscopic division of obstructing longitudinal vaginal septum, Surgical technique	Heba Bargawi
	Laparoscopic Exploration for Patent Processus Vaginalis during Orchidpexy	Naruki Higashidate
	Changing gold standard in surgical treatment of vesico ureteric reflux	Ajay Abraham
	Preliminary Application of Single-Port Robotic Surgical System in Pediatric Urological Surgery	Xiangyu Zou
	Retroperitoneoscopic nephroureterectomy for ureteral triplication with an ectopic opening: Utilizing SPECT/CT for atrophic kidney localization	Masataka Hida
	Fallopian tube torsion with hydrosalpinx in a Japanese girl: A case report	Kenichiro Konishi
	A case of hiatus hernia with esophagogastric fistula	Tamaki Iwade

THURSDAY, MAY 29, 2025**Room 1 (Emerald)**

7:00 - 7:45	Quick Shot IV GI & Robot	CHAIR:
		Ismael Elhalaby
		Chin-Hung Wei
		Soichi Shibuya
NO.	TITLE	PRESENTER
	ROBOT-ASSISTED EXCISION OF CYSTIC DUPLICATION OF THE DUODENUM	Yury Kozlov
	Comparison of two techniques of paediatric percutaneous laparoscopic inguinal hernia repair	Toru Shimizu
	Endoscopic treatment with covered self-expandable stents for anastomotic stricture after pull-through procedure of Hirschsprung's disease	Shuiqing Chi
	Laparoscopically Assisted Versus Open Colostomy for Anorectal Malformation: A Comparison of Postoperative Outcomes	
	Development, Implementation and Clinical Impact of a Clinical Practice Guideline for Managing Appendicitis in Children Using a Plan-Do-Study-Act Framework	Ali Mejaddam
	Single-Incision Laparoscopic-Assisted Endorectal Pull-through for Hirschsprung's Disease in Neonates	Ngoc Nguyen
	An analysis of redo fundoplication cases after performing the laparoscopic Nissen technique	Shoko Ogawa
	THE ADVANTAGE OF LAPAROSCOPIC SURGERY IN CHILDREN WITH INFLAMMATORY BOWEL DISEASES	Aleksey Gusev
	Transumbilical laparoscopic-assisted appendectomy without pneumoperitoneum for children: A single center experience	Bin Yamaoka
	Stapled Neo-Malone Creation: A Simplified Technique with Comparable Outcomes for Antegrade Continence Enemas	Ismael Elhalaby
	Robotic Partial Splenectomy in Non -parasitic splenic cysts	Tejaswi Hemachandran
	ROBOT-ASSISTED EXTRAVESICAL URETERAL REIMPLANTATION FOR VESICORENAL REFLUX AND PRIMARY OBSTRUCTIVE MEGAURETER IN CHILDREN	Yury Kozlov
	Do Parents Prefer Advanced Surgical Techniques in Neonatal Surgery?	Kengo Hattori
	Learning curve of total robotic jejunojejunostomy during choledochal cyst excision in pediatrics: a retrospective study	Bo Xiang
8:00 - 8:30	General Assembly	
8:30 - 9:10	Session XIV Gastrointestinal III	CHAIR:
		Matthew Clifton
		Maria Marcela Bailez
		Philippe Montoupet
NO.	TITLE	PRESENTER
	Weight Loss and Health Status 15 Years after Gastric Bypass in Adolescents	Thomas Inge
	Laparoscopic Spleen Sparing Distal Pancreatectomy for Blunt Pancreatic Injury	Emily Vore

THURSDAY, MAY 29, 2025

	Impact of Laparoscopic Nissen Fundoplication on Postoperative Outcomes in Children with Congenital Esophageal Atresia: A Comparative Analysis	Shuangshuang Li
	Early Laparoscopic Drainage of Acute Post Traumatic Pancreatic Pseudocyst: A New Modified Approach	Sherif Shehata
	Laparoscopic Revisions in Biliary Atresia: Efficacy and Challenges	Chiyoe Shiota
	Laparoscopic Intra-gastric Surgery for Gastric Duplication Near the Cardia in a Pediatric Patient: A Case Report	Shigemitsu Kojima
	A needle in a haystack – Laparoscopic duodenal foreign body removal	Maho Kurashima
9:10 - 9:50	Session XVI Miscellaneous	CHAIR:
		Marmoud Fiky
		Karen Diefenbach
		Eduardo Perez
NO.	TITLE	PRESENTER
	Selection of indications for thoracoscopic anatomical lesion resection in the treatment of congenital lung malformations	Miao Yuan
	Prenatal fetoscopic repair of Open Spinal Neural Tube Defects by two-layer technique with exteriorized uterus: perinatal outcomes of the first 50 cases	Carlos Gine
	Beyond Anatomy: Experience with Video-Assisted Repair of Direct Hernias in Children	Alberto Torres
	QUALITY OF LIFE'S IMPROVEMENT IN PEDIATRIC PATIENTS WITH PILONIDAL SINUS DISEASE UNDERGOING PEDIATRIC ENDOSCOPIC PILONIDAL SINUS TREATMENT (PEPSIT)	Francesca Carraturo
	Transaxillary endoscopic subfascial operation for muscular torticollis in pediatric patients	Yu-Tang Chang
	Single-Port Laparoscopic Placement of Tenckhoff Catheters in Pediatric Patients: Operative Technique and Long-term Outcomes	Trang Dang
	Discernible demarcation of pulmonary lesion exists in patients with congenital pulmonary airway malformation and intralobar bronchopulmonary sequestration	Chang Xu
	EVALUATING THE CRANIOCAUDAL EXTENT OF CHEST DEFORMITY IN PECTUS EXCAVATUM	Stephanie Brierley
10:20 - 11:20	Panel III Controversies in Esophageal Atresia	CHAIR:
		Tetsuya Ishimaru
		Sabine Zundel
NO.	TITLE	PRESENTER
		Steve Rothenberg
		Oliver Muensterer
		Maximiliano Maricic
		Hanna Alemayehu
		Maurizio Pacilli
		Ergun Ergun

THURSDAY, MAY 29, 2025

11:20 - 11:50	Sybil Storz Lecture State of the Art	CHAIR:
		Go Miyano
		PRESENTER
		Yusuke Watanabe
12:00 - 12:50	Industry Lunch (Sponsored Miyarisan Pharmaceutical Co., Ltd.)	CHAIR:
		Shigeru Ono
NO.	TITLE	PRESENTER
	Original Research on Microbiome, Stool, and Meconium Proteomics: A Study from Japan	Eiichiro Watanabe
13:00 - 14:05	Session XVIII Education	CHAIR:
		Katherine Berseness
		George Azzie
		Carolina Milan
NO.	TITLE	PRESENTER
	Do it yourself (DIY) guide for FLS (Fundamentals of Laparoscopic Surgery) Skills Training: A GLAP solution for Lack-of-Access Settings(video)	Maria Bailez
	Development and Pre-Validation of Simulated Models for Minimally Invasive Repair of Pectus Excavatum	Gastón Elmo
	Validating the clinical effectiveness of preoperative training on pediatric surgery fellows using the laparoscopic percutaneous extraperitoneal closure (LPEC) simulator	Masakazu Murakami
	Optimal Laparoscopic Procedure for Surgical Education: Comparison of Three Different Approaches in Pediatric Appendectomy by Surgical Residents	Lynne Takada
	Learning curve in simulator training for thoracoscopic esophageal anastomosis: Analysis of correlation anastomosis quality assessment and forceps manipulation	Yuki Maeda
	Learning curve in simulator training for thoracoscopic esophageal anastomosis: Analysis of correlation anastomosis quality assessment and 29-point endoscopic skill check list/ Suturing Errors Score	Sayaka Tsutsumida
	A cumulative sum analysis of the simulator-based proficiency process for thoracoscopic esophageal anastomosis.	Yaohui Guo
	Current Status of Simulation-based Training Tools in Newborn Minimally Invasive Surgery: A Systematic Review	
	VALIDATION OF A PROTOTYPE OF A SIMULATOR FOR LEARNING LAPAROSCOPIC SKILLS, BASED ON VIRTUAL REALITY AND IMMERSION.	José Ortiz Hernández
	High-Performance Training for Neonatal Advanced Minimally Invasive Surgery (MIS): Program Design and Outcomes	Maximiliano Maricic
	Advancing Cryoanalgesia Training: Development and Validation of Thoracoscopic and Percutaneous Simulation Models	Gastón Elmo

THURSDAY, MAY 29, 2025

14:05 - 14:45	Session XIX Gastrointestinal IV	CHAIR:
		Pablo Laje
		Martin Metzelder
		Bethany Slater
NO.	TITLE	PRESENTER
	Risk factors for recurrent reflux in children after laparoscopic fundoplication – a 10-year follow up analysis	Patrick Ho Yu Chung
	Laparoscopic Gastrostomy Tube Placement: Impact of Suture Technique on Short-Term Outcomes	Carly Chappell
	Minimally Invasive Surgical Techniques in the Treatment of Complex Pediatric Surgical Disease Over Time and Associated Outcomes	John Woodward
	Single-Incision Laparoscopic Ileocectomy in Pediatric Crohn's Disease: A 15-Year Experience	Seth Saylors
	Evaluation of Effect of Sleeve Gastrectomy on Metabolic Parameters and Inflammatory Markers in Obese Adolescents	Tamer Tamer
	Investigation of Factors Influencing the Surgical Time of Nissen Fundoplication	Kaori Morita
	Laparoscopic surgery for inflammatory bowel disease in young children	Akinori Ichinose
14:45 - 15:35	Session XX ICG / Robotics II	CHAIR:
		Carroll Harmon
		Hiroomi Okuyama
NO.	TITLE	PRESENTER
	Robotic-Assisted Vertical Sleeve Gastrectomy Using a Single-Fire Stapler Approach	Wendy Jo Svetanoff
	Propensity-score matched analysis comparison of robotic and laparoscopic assisted anorectoplasty for high-type anorectal malformation: a multicenter study	Zebing Zheng
	AI-Enhanced vagus nerve recognition in thoracoscopic repair of esophageal atresia: A comparative study with pediatric surgeons	Akihiro Yasui
	Artificial intelligence (AI) based machine learning (ML) model trained with visual quality indicators (VQI's) for laparoscopic NISSEN fundoplication: An experimental proof of concept	Holger Till
	NEW ROBOTIC SURGICAL SYSTEM VERSIUS - REVIEW OF THE FIRST 100 OPERATIONS	Yury Kozlov
	Prediction of the Optimal Timing of Thoracoscopic Recurrent Tracheoesophageal Fistula Repair Surgery Guided by Preoperative Chest CT Examination and Machine Learning Models	Dingding Wang
	Robotic Lung-Sparing Surgery vs Pneumonectomy in Extended CPAM: A Management Dilemma	Zafer Dokumcu
	USE OF ICG-GUIDED FLUORESCENCE IMAGING IN PEDIATRIC LAPAROSCOPIC AND ROBOT-ASSISTED SURGERY: A SINGLE-CENTER CASE SERIES	Claudia Di Mento

THURSDAY, MAY 29, 2025

15:35 - 16:30	Worst Nightmare	CHAIR:
		Holger Till
		Miguel Guelfand
		Philipp Szavay
NO.	TITLE	PRESENTER
	Dancing with Disaster: Managing a Pancreatic Pseudocyst in a 12-Year-Old Without Losing Our Minds (or the Pancreas)	Alberto Torres
	Endobronchial valve therapy for recurrent spontaneous pneumothorax refractory to surgical management	Jonathan Vacek
	"Nightmare Accident" of Posterior Tracheal Injury during Thoracoscopic Surgery in a Neonatal Patient with a Tracheoesophageal fistula: The First Case of Esophageal Atresia Treated by Thoracoscopic Surgery at Okinawa Prefecture in Japan	Haruka Kobayashi
	INADVERTENT DIAPHRAGMATIC INJURY DURING SIPES SPLENECTOMY	Oliver Muensterer
	My Worst Nightmare - Knot Funny! Iatrogenic Diaphragmatic Hernia Repair Falls Apart	Tal Koppelman
	Postoperative Bowel Obstruction Following Laparoscopic Percutaneous Extraperitoneal Closure: A Rare Complication that Requires Recognition	Yosuke Tsunoda
	Delayed Colonic Perforation Due to Thermal Injury from Ultrasonic Shears in Laparoscopic Ladd Procedure for a neonate	Yuki Osawa
	What should you do when you encounter an esophagus with a normal outer appearance during thoracoscopic surgery for a patient diagnosed with typical Gross type C esophageal atresia?	Masakazu Murakami
16:40 - 17:00	Closing Ceremonies	GREETING:
		Satoshi Ieiri
		Katherine Berseness
		Mark Wulkan
17:00 - 18:30	JPS Reception	GREETING:
		Pablo Laje
		Ken Wong

THURSDAY, MAY 29, 2025**Room 2 (Crystal Garden A)**

7:00 - 7:45	Quick Shot V Hepatobiliary	CHAIR:
		Hideaki Okajima
		Zhigang Gao
		Takahiro Jimbo
NO.	TITLE	PRESENTER
	YQHX inhibits hepatic stellate cells activation by suppressing NCOA4-mediated ferritinophagy in biliary atresia	Jie Sun
	Robotic Pancreaticoduodenectomy (Whipple Procedure) in Pediatric Patients: A Safe and Feasible Approach	Irving Zamora
	Initial Journey from Open to Laparoscopic Approach in Pediatric Choledochal Cyst Excision: Unraveling safety and efficiency	Hardian Gunardi
	Laparoscopic Liver Resection in Children: A Case Series from Vietnam National Children's Hospital	Hoan Vu
	Comparison of Short-Term and Long-Term Outcomes Between Conventional Laparoscopic and Indocyanine Green-Assisted Resection in Choledochal Cysts	Joel Cazares
	Our experience of laparoscopic living donor hepatectomy for left lateral segment graft	Yasuyuki Uchida
	Beyond the Cutting Edge: Laparoscopic Management of Children with High-grade Pancreatic Trauma Secondary to a Handlebar Injury	Justin Laree Tantoco
	Minimally invasive surgical treatment of solid pseudopapillary tumors of the pancreas in children: comparison of robotic surgery and laparoscopic surgery	Kuiran Dong
	Laparoscopic Hepaticoduodenostomy and Choledochal Cyst Resection for a Giant Choledochal Cyst Causing Biliary Cirrhosis in a Newborn	Eduardo Perez
	Single-Site Robotic vs Multi-Port Laparoscopic Cholecystectomy in the Pediatric Population: a 5 Year Review with the DaVinci Xi Robotic Platform	Wendy Jo Svetanoff
	Laparoscopic Approach to Variations of Portosystemic Shunts Between the Portal Vein and Inferior Vena Cava	Yohei Yamada
	Laparoscopic wedge liver resection S5/6 for large hepatoblastoma	Itsarapan Chokchai
	Application of Fluorescence-Guided Surgery in Pediatric Hepatobiliary Surgery	Kirtikumar Rathod
	Anatomic references for laparoscopic pancreatic resection in Congenital Hyperinsulinism: video illustration and standardization of the extent.	Marcelo Rombaldi
	Revisiting Laparoscopic Cholecystectomy with Assistant Leadership	Koichi Tsuboi
8:30 - 9:15	Session XV ICG & Robotics I	CHAIR:
		Arturo Aranda
		Joel Cazares
		Andreas Leutner
NO.	TITLE	PRESENTER
	Robotic Sleeve bronchoplasty +/- lobectomy in children.	Sundeep Kisku

THURSDAY, MAY 29, 2025

	Comparation of laparoscopy-assisted and robot-assisted choledochal cysts resection in children less than 3 months of age: a single-center cohort study	Zhigang Gao
	Comparison of Robotic and laparoscopic liver resection for pediatric liver tumor: a multicenter study	Zebing Zheng
	Comparative Outcomes of Robotic Versus Thoracoscopic Repair in Neonates with Esophageal Atresia: A multicenter study	Shao-tao Tang
	Initial Adaptation and Suturing Performance of the hinotori™ Surgical Robotic System in Pediatric Surgeons With Minimal Robotic Exposure	Serena Iwabuchi
	Robotic-Assisted Ureteric Reimplantation in Pediatrics: A Safe and Effective Alternative to Traditional Approaches	Arvind Sinha
	First Use of the da Vinci SPTM Robotic Platform in Pediatric General Surgery: Improved Single-Site Surgery	Nathan Novotny
9:15 - 10:00	Session XVII Hepatobiliary II	CHAIR:
		Maria Cerulo
		Paula Jaimes Hoz
		Shun Onishi
NO.	TITLE	PRESENTER
	Distal-Hepatico-duodenostomy during laparoscopic/robotic excision of choledochal cyst to prevent Duodeno-gastric bile reflux: Experience with 56 cases	Ravi Kanojia
	MIS APPROACH TO BENIGN EXOCRINE PANCREATIC TUMORS IN CHILDREN	Anatole Kotlovsky
	Technical performance, surgical workload and patient outcomes of robotic and laparoscopic surgery for pediatric choledochal cyst: A multicenter retrospective cohort and propensity score-matched study	Meng-xin Zhang
	Hepatic ductoplasty for widening hepaticojejunostomy in the transumbilical laparo-endoscopic single-site surgery for childhood choledochal cyst	Tran Son
	Comparison of outcomes among open, laparoscopic, and robotic surgeries for pediatric congenital biliary dilatation	Takuya Maeda
	A Risk Factor for Portal Vein Thrombosis after Laparoscopic Splenectomy in Children - The Usefulness of the Splenic Vein/Portal Vein Diameter Ratio-	Atsuhisa Fukuta
	Comparison of laparoscopic surgery and open surgery in children with congenital biliary dilatation: Report of 231 consecutive cases from Kyushu Pediatric Surgery Study Group in Japan in the past decade	Masakazu Murakami
13:00 - 13:45	Quick Video GI, Urology and Hepatobiliary	CHAIR:
		Charles Leys
		Sohail Shah
		Jun Fujishiro
NO.	TITLE	PRESENTER
	Laparoscopic Distal Pancreatectomy for Traumatic Pancreatic Injury	Maho Kurashima
	Laparoscopic Repair of incarcerated inguinal hernia with ovarian torsion in female infant	Jamila Almaary

THURSDAY, MAY 29, 2025

	Laparoscopic repair of giant paraesophageal hernia with intrathoracic stomach and duodenum in a small infant	Carlos de la Sen Maldonado
	A Case of Laparoscopic Duodenojejunal Bypass Surgery for Acute Pancreatitis Associated with SMA Syndrome	Takayuki Hirano
	Laparoscopic Ladd's Procedure in a 1-week-old with Malrotation and Midgut Volvulus	Seth Saylors
	Transumbilical Laparotomy with Umbilical Cord Preservation and Reconstruction for Newborns with Small Bowel Obstruction: A Novel Technique	Eduardo Perez
	Pediatric Laparoscopic Vaginoscopy Tube Insertion	James Moon
	Suprapubic open and single-port laparoscopic surgery for urachal remnant in children	Kazuaki Takiguchi
	Vesicoscopic ureterocoele excision and common sheath reimplantation	Vishesh Jain
	The LAVA Procedure-A Novel Approach to Hematometocolpos Drainage	Alison Lehane
	A BOY'S HOPE: ONE-STAGE VESSEL-SPARING LAPAROSCOPIC ORCHIDOPEXY FOR INTRA-ABDOMINAL TESTIS IN CHILDREN	Patricia Anne Tapiador
	Laparoscopic and Robotic management of accessory bile ducts at porta hepatis in patients undergoing excision of Choledochal cyst (Video Presentation)	Komal Aggarwal
	Robotic-assisted Excision of Choledochal Cyst	Yousef El-Gohary
	Small bowel fistulization seven years after accidental magnet ingestion causing bowel obstruction	Kristen Calabro
	Laparoscopic Witzel's feeding jejunostomy with Stamm's gastrostomy for a case of corrosive esophageal stricture in a 2-year-old boy: video demonstration of technique	Anju Verma
13:50 - 14:40	Quick Video Thoracic	CHAIR:
		Zefer Documcu
		Yasushi Fuchimoto
NO.	TITLE	PRESENTER
	Robotic segmental lung resections	Bal Harshjeet Singh
	Management of Recurrent Pulmonary Infections in Esophageal Atresia: Thoracoscopic Stump Excision and Posterior Tracheopexy	Derya Canarslan
	Minimally Invasive combined approach for Complex Chest Wall Malformation and Morgagni Hernia	Gastón Elmo
	Thoracoscopic anastomosis following open traction sutures for esophageal atresia with tracheoesophageal fistula	Hau Le
	Management of Recurrent Pulmonary Infections in Esophageal Atresia: Thoracoscopic Stump Excision and Posterior Tracheopexy	Zafer Dokumcu
	Reduced port thoracic surgery for congenital cystic lung disease.	Masataka Takahashi
	Thoracoscopic Resection of a Congenital Lung Malformation with a Superior Segmental Fissure and Bronchial Atresia	Shunpei Okochi
	Thoracoscopic Left Upper Lobectomy: Fissure only approach- A video presentation	Manish Pathak

THURSDAY, MAY 29, 2025

	Thoracoscopic Resection of a large Esophageal Duplication Cyst	Franz-Xaver Anzinger
	Thoracoscopic Excision of a Large Mediastinal Lymphangioma	Meagan Rosenberg
	Awake Thoracoscopic Mediastinal Biopsy; An Option Not To Be Forgotten	Samantha Koenig
	Apparently Aberrant: Thoracoscopic Encounter with Aberrant Right Subclavian Artery During Upper Esophageal Pouch Dissection	Shannon Wong-Michalak
	Preoperative Assessment of Airway Anatomy: Bronchoscopy Versus CT 3D Reconstruction for Surgical Planning in Esophageal Atresia Repair	Mahmoud Elfiky
14:45 - 15:30	Quick Video Robot, Innovation & Oncology	CHAIR:
		David Juang
		Sunghoon Kim
		Yoshiaki Kinoshita
NO.	TITLE	PRESENTER
	Robotic Rectopexy for Rectal Prolapse	Mahilet Assefa
	Robotic TAAP repair of Morgagni Hernia in a 13-Year-Old	
	MIS FOR MALS (MEDIAN ARCUATE LIGAMENT SYNDROME). TIPS AND TRICKS	Andrzej Golebiewski
	ROBOTIC MANAGEMENT OF MEDIAN ARCUATE LIGAMENT SYNDROME (MALS) IN A CHILD : Lessons Learned	Arvind Sinha
	Pelvi-ureteric Junction Obstruction secondary to Vascular Anomalies in a Malrotated Children – Video demonstration of Robotic Technique and considerations	Tarun Kumar
	Robotic-Assisted Extraction of A Gastric Bezoar	Kristine Griffin
	Robotic Excision of Right Cervico-Mediastinal mass	Tarun Jacob
	Robotic Resection of Esophageal Duplication Cyst	Samiksha Bansal
	Robotic-Assisted Duodenal Web Repair in a One-Year-Old	
	Expanding the applications of robotics in paediatric surgery in LMIC's: Primary Duhamel Pullthrough for Hirschsprung's disease	Geeta Kekre
	Robotic-Assisted Repair of a Morgagni Diaphragmatic Hernia Repair	Kristine Griffin
	THORACOSCOPIC RETRIEVAL OF AN IMPACTED BUTTON BATTERY	Tejaswi Hemachandran
	Single-Port Laparoscopic Bilateral Inguinal Hernia Repair in a 5-Year-Old Girl	Nzuekoh Nchinda
	Middle management: Laparoscopic Ligation of the Middle Sacral Artery Prior to En-bloc Resection of Sacral Coccygeal Teratoma	Shannon Wong-Michalak
	Laparoscopic Segment 5/6 wedge resection for PRETEXT II in 12 Kg patient with Hepatoblastoma using hanging technique.	Pattamon Sutthatar

THURSDAY, MAY 29, 2025**Room 3 (Crystal Garden B)**

7:00 - 7:45	Quick Shot VI Technique & Education	CHAIR:
		Hannah Luz
		Georgina Falcioni
		Satoshi Obata
NO.	TITLE	PRESENTER
	Technical innovation in laparoscopic Kimura or non-Kimura duodenoduodenostomy from neonates to adolescents	Stephan Rohleder
	An Effective Method of Retrieving a Buried Gastrostomy Flange in Children	Atul Sabharwal
	An alternative medium for EPSIT	Haguy Kammar
	Minimizing Spillage and Recurrence in Laparoscopic Hydatid Liver Cyst Resection	Cecilia Gigena Heitsman
	PACIFYING STOMA PROLAPSE: A Novel Approach to Reducing Prolapsed Stomas	Seth Saylor
	Endoscopic Transgastric Drainage of a Peri-Splenic Abscess Following Perforated Appendicitis in a Pediatric Patient: A Novel Approach to a Challenging Complication	Nathan Novotny
	Laparoscopic hepaticojejunostomy of pancreaticobiliary maljunction without dilatation of the extrahepatic bile duct 3 mm in diameter	Akinori Ichinose
	Reducing Risks in Liver Biopsies: A Simple, Safe and Novel Approach to Minimize Risk for Bleeding	Cecilia Gigena
	Repair of Right Congenital Diaphragmatic Hernia with Ectopic Kidney with Percutaneous Extracorporeal Sutures Using EndoClose® Needle	Joohyun Sim
	Laying the Foundations of Innovation: Early Stages of the Modified Iris U-Kit System in Pediatric Surgery Teaching and Safety at a Mexican Training Hub	Jorge Colín-Garnica
	THREE-Dimensionally Printed Simulator for Training in Endoscopic Injection of Bulking Agent for Vesicoureteral Reflux: A Pilot Study.	Maria Escolino
	INITIAL VALIDATION OF A LOW COST MODEL FOR TRAINING RETROCECAL LAPAROSCOPIC APPENDECTOMY	Georgina Falcioni
	Minimally Invasive Laparoscopic and Robotic Adrenalectomy for Benign Tumors of the Adrenal Gland	Ashwin Pimpalwar
	A Cheap and Innovative Model That Can Be Feasibly Constructed Around the World to Aid Surgical Learners in Performing Laparoscopic Appendectomies	Carly Celebrezze
